Who is my Primary Contact???
Top Issues

Who/what did I vote for?
Top Issues

The system is not fully automated
What to do?

**Nothing**
- don’t need to do anything
- it’s cheap
- non sustainable
- every voting gets more inefficient

**Switch to email voting**
- simple and cheap
- easy for members
- no ballots
- manual process
- non transparent
- insecure
- spam filters may cause problems

**Develop an automated system ccManager**
- scalable
- almost unlimited
- low-cost voting
- transparent
- easy to archive
- easier to involve members
- expensive to develop
- might be harder to use
- requires maintenance
How could it look?
