Yes I confirm that People Who will not rely on ICANN for funding

President and Secretary/Treasurer hold annual meeting. Email lists are created and publicized for any business requiring a statement or action.

Yes.

14. Describe how your organization keeps its constituents/membership informed about, and enables them to participate in, decisions regarding issues of interest:

#### Objectives

17. What is your organization's primary goal or mission (please attach any mission or policy statement for your organization, if in writing, or provide a URL, if posted):

people who experience mood swings, fear, voices, visions - each other on the internet for advocacy and support

18. What ICANN-related issues currently are of interest to your organization's constituents/membership:

Since the organization is global and virtual, the health and well-being of the internet is central. We also overlap with the general concerns about privacy and rights violations. Among People Who, there are many people comfortable with technology and interested in how the tools are used and by and for whom.

19. If formed, will your organization commit to assisting the Regional At-Large Organization (RALO) for the region in which your organization is based in performing its function?

Yes, and I suggest ICANN create a 'borderless' region.
