E-Crime Review and Discussion

33rd ICANN Meeting

Cairo, Egypt, November 4, 2008

Panelists

- Rod Rasmussen, Internet Identity
- Dave Piscitello, SSAC
- Bobby Flaim, FBI
- Greg Aaron, Afilias
- Martin Sutton, HSBC

Agenda

- Outline e-crime landscape
- Discuss!

Goals

- Provide ICANN community with first-hand information on e-crime and how it affects the community
- Find out what the questions are that the community has about e-crime
- Determine general level of knowledge and interest
- Look towards a formal session in Mexico City

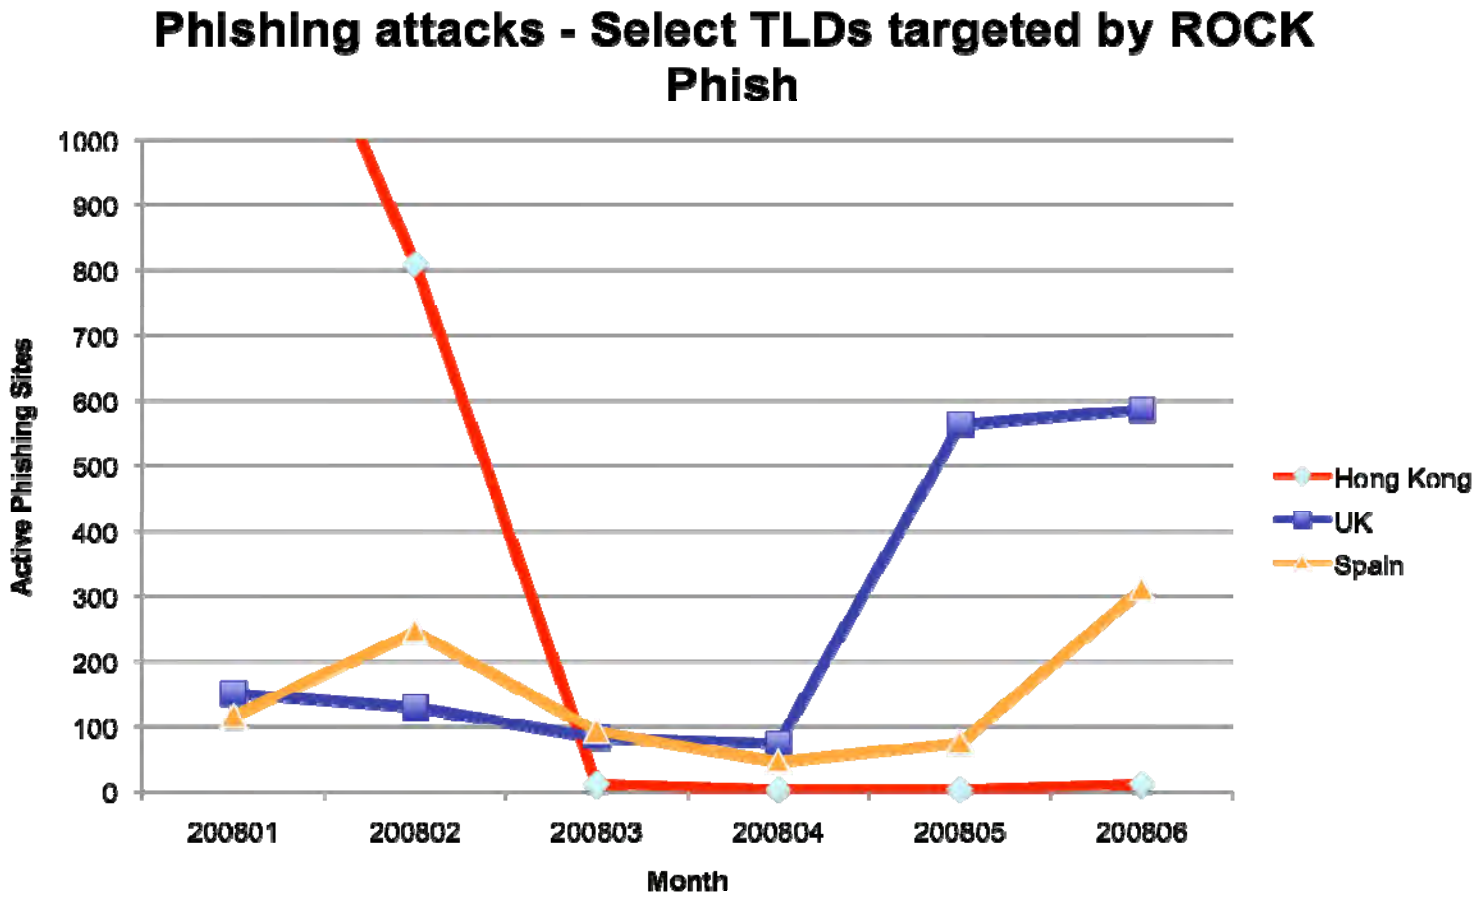
Cause-and-effect: We're in this Together



Questions?

- How can we (the security community) better inform the broad continuum of ICANN stakeholders on these issues?
- Can we better incorporate consideration for these issues into policy and practice discussions?
- What are the questions and issues the ICANN community has for the security and law enforcement communities?
