Open Registration Rules

Start on 11 November 2010

- Registrar price ~ 2,3 USD per domain
- ❖ Technical limitation: 4800 requests per hour per registrar
- Administrative limitations:
 - Local residents & Russian-based corporations only
 - A 1-year ban on transfer of domain names between users

Concerns: big volumes of domains might be purchased by professionals => significant registry database load

Pre-Launch Phase

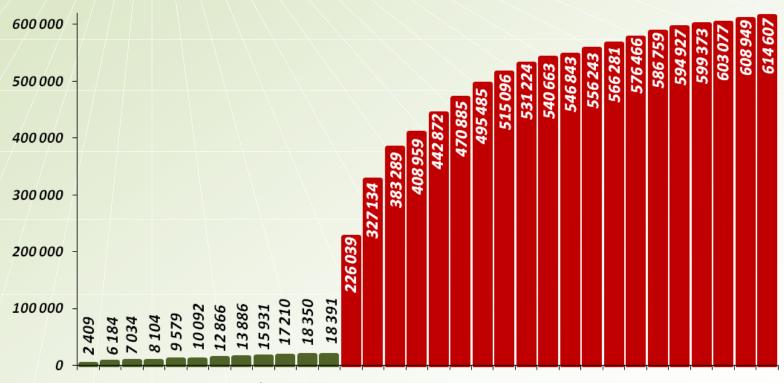

- Implementation plan designed
- Risks identified, risk management plan developed
- Technical registration rules & procedures developed:
 - <=3 EPP sessions per registrar,</p>
 - <=10 TCP sessions per registrar,</p>
 - 4800 requests per hour per registrar
- Testing the system with registrars for 24 hours. Results analyzed. Lastminute fine-tuning, and...

Here we go!

On 1 December 2010 the number of domains in .PΦ hit 614,607

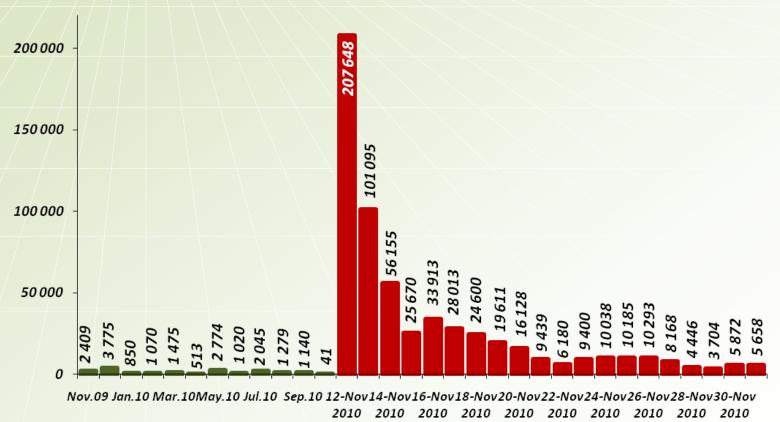

Total number of domain names in .PO

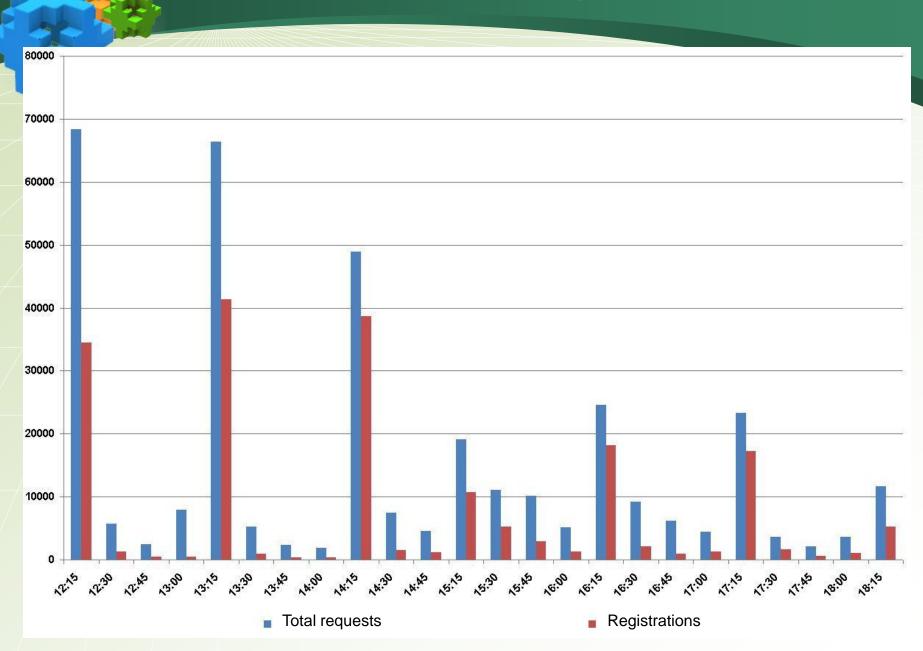

Net Growth in .PΦ

For the first 20 days of the open registration phase the increment figure in .PΦ was 596,216 domain names

Net growth of domain names in .PΦ
