Domain Tasting Tutorial: GNSO PDP Process Overview

Avri Doria Chair, GNSO Council

24 June, 2007

San Juan, Puerto Rico

Outline

- GNSO PDP Process
 - Issues Report
 - Launching a PDP
 - Conduct of a PDP
- PDP Time-lines
- Discussion
- Next Steps for Domain Tasting Issues report

Issues Report

- Request for Issues report can come from:
 - ICANN Board
 - GNSO Council
 - Advisory Committee, e.g. At Large Advisory Committee
- Staff sends Issues Report to GNSO Council
- GNSO Council decides whether to launch a PDP

Launching a PDP (I)

- If Staff Recommendation says issue is within scope of GNSO policy process:
 - Vote of 33% of Council members present to start a PDP can initiate a PDP;
- If Staff Recommendation says issue is out of scope:
 - Supermajority Vote of the Council members present is needed.

Launching a PDP (II)

- GNSO Council Weighted voting:
 - Number of votes of gTLD Registries and Registrars constituencies is equal to the number of votes of representatives selected by other Constituencies.

Conduct of a PDP (I)

- 1st public comments right after the start of a PDP
- Council chooses whether to create a Task Force
- Constituency statements are collected, they include:
 - clear statement of constituency's position
 - how the constituency arrived at its position (e.g. constituency meetings, teleconferences)
 - analysis of how the issue would affect the constituency, including financial impact
 - how long it would take to implement the policy.

Conduct of a PDP (II)

- Preliminary Task Force Report
- 2nd public comments
- Final Task Force Report
- GNSO Council vote on recommendations
- Council report to ICANN Board of Directors

Conduct of a PDP (III)

 If Council Supermajority Vote, Board adopts policy unless >66% of Board determines that policy is "not in the best interests of ICANN community or ICANN"

Implementation of policy

By-Laws Time-line for a PDP

- Request -> Issues Report 15 days
- Issues Report -> Initiation of PDP 15 days
- Initiation -> Charter/ToR 10 days
- TF
 - Charter -> Appointment of TF chair 5 days
 - Initiation -> Constituency Stmt 35 days
 - Initiation -> Prelim TF Report 40 days
 - Prelim TF Report -> deliberation mtg 5 days
 - Mtg -> TF Report 5 days
 - TF -> Council after 20 public comment period

The reality of time-lines - examples

- Contractual Conditions TF
 - Feb 06 until May 07
- Whois TF
 - Feb 05 until March 07
- New gTLD committee of the whole
 - Dec 05 still ongoing

Discussion

- Scope of PDP should be narrow
- Task Forces/working groups need clear and tightly defined terms of reference

Discussion (II)

- Council workload has often meant that creation of Task Force was preferred to 'Committee of the Whole'
- Bylaw timelines are unrealistic with complex PDPs and diversity of views – 12 – 24 months, not 90 days
- Moving towards more inclusive, informal 'working groups' – i.e. not just GNSO Constituency members.

Next Steps

- Council Open Forum discussion
- Council Open meeting consideration of Issues report
 - Decision:
 - PDP
 - TF or committee of the whole
 - WG to study issue and make recommendation
 - limited time
 - open to community
 - other possibilities...

Thank You
