Record registration growth over the past few months
  - a reflection of the strength of the Australian economy.

Cross-zone marketing initiatives
  - promoting .net.au to .com.au registrants (where the corresponding name is available) and vice versa
  - successful in driving incremental registrations.
DNSSEC & IPv6

• DNSSEC
  – testing ongoing
  – Working towards launch of testbed in Q1 2010

• IPv6
  – glue records being accepted & IPv6 transit added
  – AAAA not yet published in root
  – sponsoring Australian IPv6 Summit in Melbourne in December 2009
