- Chairs the DWG
- Provides Expertise on DNS policies, operations and experiences
- Carries out international and regional coordination

DWG Members

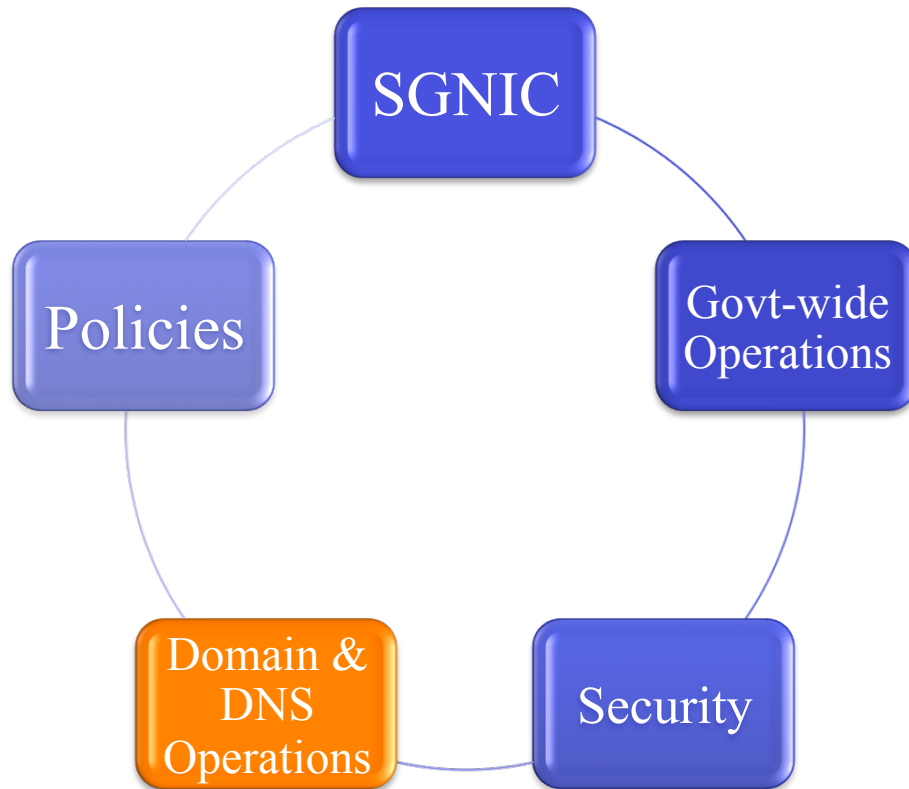

- Advises on matters relating to organisation-wide operations and guidelines
- Coordinates with SOE Team on DNSSEC matters

DWG Members

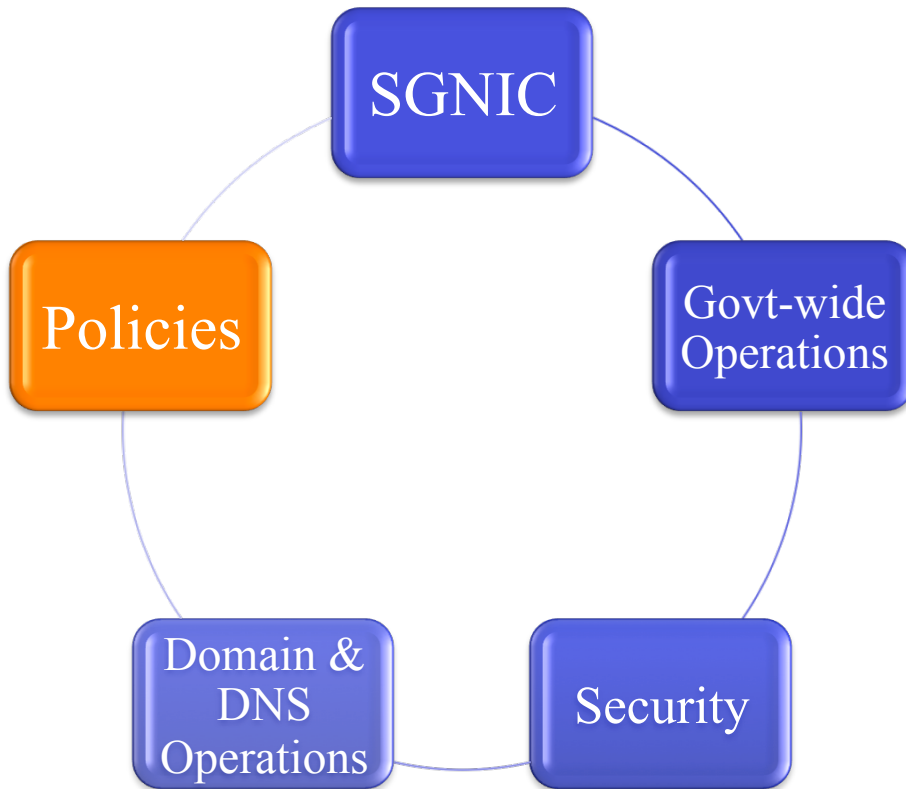

- Advises on matters relating to IT security
- Advises on DNSSEC in relation to the Security Master Plan

DWG Members

- Advises on domain name and DNS issues from the end-users perspective as well as service provider
- Coordinates with end-users on testbed

DWG Members

- Advises on regulatory policies and position
- Advises on legal issues

Testbed

Testbed Objectives

1. Experience learning for stakeholders
2. Determine best practices and guidelines
3. Commercial launch

Conduct of Testbed

- No disruption to normal operations
- Full assistance to participants
- End-to-end
- Temporary 3rd level domain name category
eg [registered name].dnssec.sg
- Automate as much as possible
 - Evaluation of products/solutions
 - Machines installed and configured

Training

DNSSEC Training in Singapore

- Collaboration with APNIC
- 3 days hands-on workshop in Singapore
- January 2010
- Watch SGNIC and APNIC website for registration details soon

Q & A

Thank you!
