ccNSO Members Meeting
Seoul, Korea
CENTR is the world’s largest association on Internet Domain Name Registries. CENTR has over 50 members, each of them responsible for the operation of the country code top level domain in their country. CENTR members account for over 80% of the country code domain registrations worldwide.
What is marketing? - 5 minutes on google ...

'The management process responsible for identifying, anticipating and satisfying customer requirements profitably'

'Satisfying needs and wants through an exchange process'

'Management process through which goods and services move from concept to the customer'

'Marketing is the activity, set of institutions, and processes for creating, communicating, delivering, and exchanging offerings that have value for customers, clients, partners, and society at large'

'to market = to make goods available to buyers in a planned way which encourages people to buy more of them, for example by advertising'

Conclusion: Marketing is more than promotion
Domain names are everywhere all the time ....

.... but people don’t know what a domain name is!

.... and have no idea that and how they can get their own domain name!
Sharing resources between registries

How can we help as regional organisation?
