New language services policy that's been under wraps until this week. We haven't seen it yet. It will be announced this week. ALAC will be briefed – it's on your agenda.

WT-B will review it to see if it satisfies Rec 9.

In addition other new translation tools will be rolled out soon by ICANN and we will investigate those too.

It will be suggested to RALO's the opportunity to explore making recommendations according to their regional needs.

Thank You
