

Accountability Work Stream 1: YES!

- New enforceable powers to hold the Board to account
- Appeals process to ensure Board follows bylaws
- More clearly specified Mission & entrenched bylaws
- Limits on the GAC's ability to influence ICANN
- Improved transparency

→ A package worth supporting, transition or not.

and...

- Carve out for ccTLDs to define our own appeals process re delegations, revocations & retirements
- Protection for outcomes of ccNSO PDPs
