Abibu R. Ntahigiye

.tz Admin Manager

abibu@tznictz.or.tz

About .tz & tzNIC

- Registered in 2006, operational in 2009;
- Having 7 staff members;
- 12 SLDs with about 11,000 domains;
- .tz Redelegated to tzNIC in April 2010;
- IPv6, DNSSEC ready & hosting F & L-root Server copies;
- Towards full 3R model, 45+ Local Accredited Registrars (one being ICANN accredited).

ccTLD Management

- Full local management of a ccTLD
 - Technical operations within the country;
 - Administrative operations based on local policies & rules (registrations, pricing, dispute resolution, etc)
- Status in Africa
 - Most countries striving for local technical operations (few exceptions);
 - Variant Governance models;
 - Technical capacity improving;
 - Marketing of CCs still a challenge;
 - Capacity in DRS challenging/little focus.

DRS in Africa

- UDRP or Customized versions;
- About 22% supported by WIPO (including .tz)
<http://www.wipo.int/amc/en/domains/cctld/>
- An area that need consideration in the Africa DNS study.

DRS with .tz

- Customized version of UDRP;
- DRS by WIPO since 2012;
- Signed an agreement in 2015 with a local legal entity (Resolution Experts Ltd – ResEx Ltd) to provide DRS (<http://resolutionexperts.co.tz/>);
- ResEx Ltd having an online DRS platform (<http://iresolve.co.tz/>);
- DRS by ResEx Ltd and WIPO effective Jan 2016.

Leading to **Full local management of .tz ccTLD.**

Thank you / Merci / obligado /Asante
