[Applause]

Tom is going to make a few announcements that are important for to you understand before we begin the next session.

Note: The following is the output resulting from transcribing an audio file into a word/text document. Although the transcription is largely accurate, in some cases may be incomplete or inaccurate due to inaudible passages and grammatical corrections. It is posted as an aid to the original audio file, but should not be treated as an authoritative record.

Tom, please go ahead.

TOM DALE:

Thank you, Thomas. Welcome back, GAC.

A couple of things, and then a quick update on the status of the communique. A couple of things firstly to do with some admin matters. Please remember, as you were asked yesterday, that if you wish to be photographed for the new GAC website, that the photographer is available downstairs for this morning and this afternoon. So please take advantage of that if you wish to do so. It is not compulsory to have your photo taken, but you may wish to be -- to have your physical merits duly recognized on the new GAC website.

Secondly, please remember to drop your business cards in the colorful gift bag at the door, please -- if you're a GAC member, that is -- so that we can, a) include you in the door prize draw and, b) ensure that we have a very complete record of who is here.

And finally, with regard to the communique input point that is on your agenda, all I have to note there is that we have received input and some new text on some issues which I will incorporate in a revised draft and circulate later today to the GAC. The new

material concerns IGO protections. That will be made available to you shortly.

There has been feedback on a number of other areas of draft advice to the Board, and we should have that available very shortly.

I think that covers matter for now.

Thank you, Thomas.
