

# EU Regulation: RIPE NCC Perspective

- Our role as Regional Internet Registry
  - Economic sanctions are a major challenge to our ability to fulfil our remit and provide service to the region
    - An evolving situation; inclusion of exemption in recent package a positive development
  - Data privacy and the RIPE Database an ongoing discussion in the community
- K-root
  - NIS 2 discussions again highlighting root server system global governance
- With multiple relevant legislative developments, RIPE a vital venue for community discussion and awareness-raising
