Update by the ccNSO Internet Governance Liaison Committee (IGLC)

ICANN77

About the IGLC

Purpose

The IGLC has been established to coordinate, facilitate, and increase the participation of ccTLD managers in discussions and processes pertaining to Internet Governance.

Membership

Open to representatives from all ccTLD managers (whether members of the ccNSO or not)
The committee counts approx. 20 members.

- Chair: Annaliese Williams (.au)
- Vice Chair: Anil Kumar Jain (.in)

The work we do

- Provide input to the ccNSO and share information on issues pertaining to Internet Governance discussions, events and processes.
- Ensure that such input as mentioned above is reflected in the ccNSO activities in discussions and processes pertaining to Internet Governance.
- The Committee may relate to and liaise with ICANN and/or other supporting organisations and advisory committees.

Examples:

- Past sessions on topics such as cybersecurity, protections of geographical indications, digital divide
- Contributions to the monthly ccNSO newsletter with IG-relevant content

Topic prioritisation

From the recent discussions, as well as the December '22 list of topics, the following items appeared with high relevance for ccTLDs across all regions:

1. Internet Fragmentation
2. Cyber Security
3. WSIS+20 Review Process
4. Capacity Building

By mid-July, IGLC expects to complete its work plan for the year ahead.

Legislative Session: You are invited!

Thursday, 15 June 2023 | 14:45 - 16:15 UTC (10:45-12:15 local)

Annaliese Williams (.au) | Session Chair

- Sabrina Wilkinson (.ca)
- Norman Warputt (.vu)
- Lourino Chemane (.mz)
- Rosalia Morales (.cr)
- Barbara Povse (.si)

ccTLDs from different ICANN geographical regions will explore how various national or regional legislative initiatives relating to cybersecurity impact them.

What are the challenges these initiatives pose for the global Internet and the multistakeholder model? What are the potential points of interaction between the various legal frameworks?

How to best serve the needs of the ccTLD community? Are we on the right track?

Let us know!

ccTLD Security and Stability Together

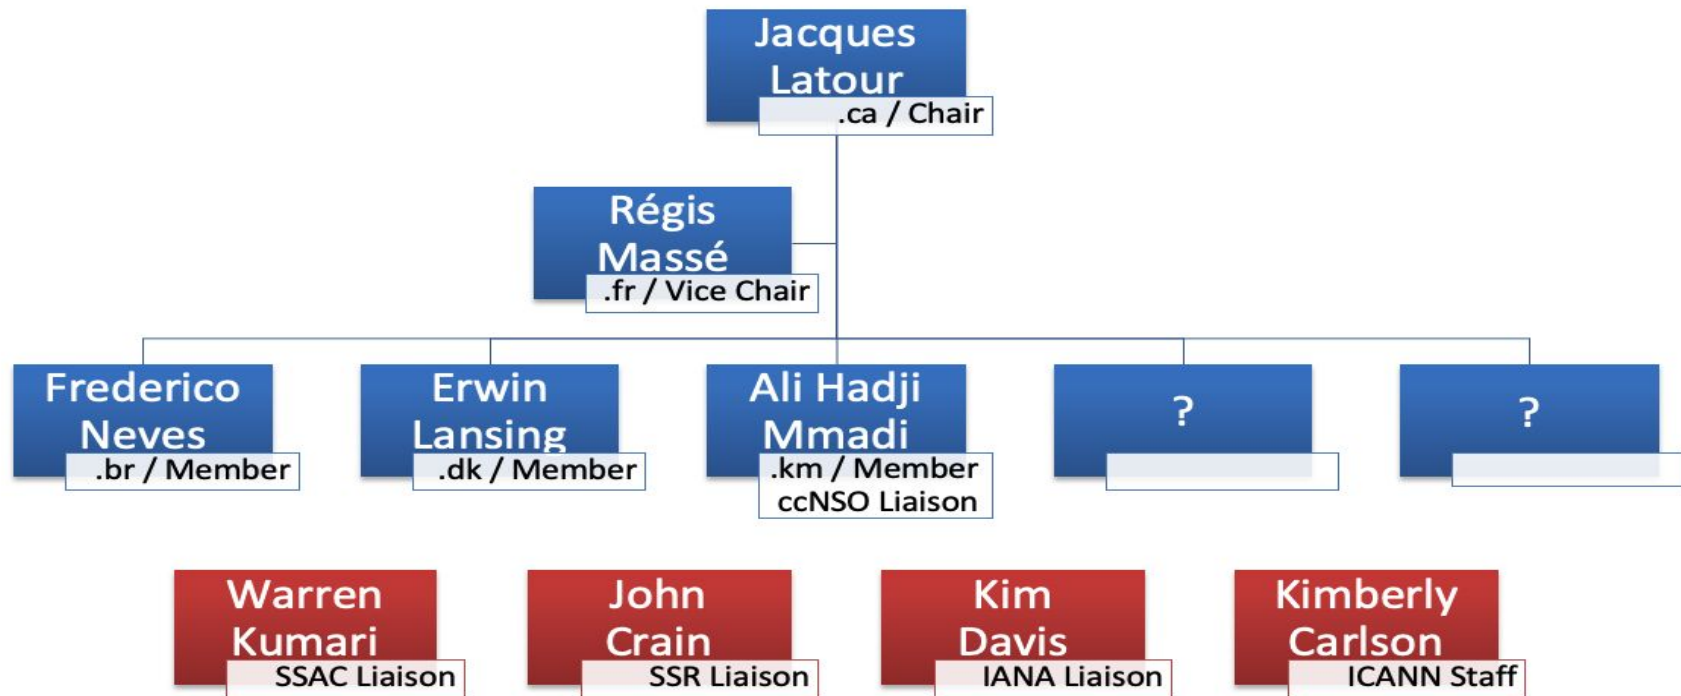

Agenda TLD-OPS ICANN77 Standing Committee Update

June 13, 2023

Jacques Latour, .ca (Chair)

Régis Massé, .fr (Vice Chair)

TLD-OPS Standing Committee

Status Update TLD-OPS @ICANN77

1. What works? Workshops!
 - Planning to do some DR/BCP related workshops - ICANN78 Hamburg
 - This is what people are asking - Sunday afternoon sessions
 - Ransomware, DNSSEC failure, DDoS, DR/BCP scenarios, data center failures
 - But this is a lot of work...
2. Looking for 2 or 3 new TLD-OPS Members
 - Contribute to workshop planning, development and execution
3. TLD-OPS public info (multiple web sites and stats) out of date
4. Security sub-committee - security info sharing didn't work
5. Evolution of a more trusted communication platform - emails?
 - Mattermost, Slack, other...
6. Need stronger contact repository controls (postman not suitable)

ccTLD Security and Stability Together

A faint, light gray world map is centered in the background of the slide.

Thank you!

Thank you!
