

ccTLD Security and Stability Together

ICANN79 ccNSO TLD-OPS Workshop Planning

March 3, 2024

Jacques Latour, .ca (Chair)
Régis Massé, .fr (Vice Chair)

Agenda - ICANN79 ccNSO TLD-OPS Workshop Planning

1. Opening and welcome (Jacques)
2. TLD-OPS Intro
3. TLD-OPS Workshop Planning
4. TLD-OPS ICANN66 DR/BCP Workshop Review
5. TLD-OPS Workshop Discussion

TLD-OPS Standing Committee

2. TLD-OPS introduction

- Global technical incident response **community** *for and by ccTLDs*, open to *all* ccTLDs (ASCII and IDN)
- Brings together **390+ people** who are responsible for the operational security and stability of 200+ different ccTLDs
- Enable ccTLD operators to **collaboratively** detect and mitigate incidents that may affect the operational security and stability of ccTLD services and of the wider Internet
- All TLD-OPS Playbook will be **publicly available** on TLD-OPS website
- **Guidance** by TLD-OPS Standing Committee
 - ccTLD reps and Liaisons (SSAC, IANA, ICANN's security team)

3. TLD-OPS Workshop Planning

- The goal of today's workshop is to review the material that TLD-OPS developed and to develop a series of TLD-OPS DR/BCP workshops.
- We're going to review the existing documentation and workshop content to bring everyone up to speed.
- Please share your experience with us :)
- While we review the information, think:
 - Was it useful?
 - Was it used after? (in simulation or for real)
 - Did it bring value?
 - Relevant/adaptable/sustainable?

Disaster Recovery Workshop Update (from ICANN65)

4. TLD-OPS ICANN66 DR/BCP Workshop Review

- The DR/BCP workshop was held in Montreal, ICANN66, Nov 2019
- Then COVID...
- The feedback was “it was great, do more!”

REVIEW

<https://community.icann.org/display/ccnsowkspc/TLD-OPS>

5. TLD-OPS Workshop Discussion

- Workshop Preparation?
 - Preparation work - update existing documentations
 - Additional scenario development
 - Focus on making this a learning experience
- Workshop execution?
 - Common best practice components - minimal tuning?
 - Documentation preparation - not too much / enough
 - 1 scenario per table - .OK ???
 - Changes to the card - do we need cards
 - Role playing - the exercise
- Wrap up - how do we make it more valuable?

Brainstorm on workshop structure

Readiness? Could we do ICANN80?

Getting ready for the next workshop

ICANN80

Scenarios for the future workshop could include:

- Ransomware,
- DDoS,
- Natural disasters,
- Global pandemics, etc.
