Will your ccTLD participate directly or indirectly in the WSIS+20 process?

0

Yes

0

No

0

Not sure

Global Digital Compact, paragraphs 28 and 68

28.

We acknowledge the importance of the Internet Governance Forum as the primary multi-stakeholder platform for discussion of Internet governance issues.

68.

We will build on the processes and forums emanating from the World Summit on the Information Society, in particular the Internet Governance Forum and its national and regional initiatives, as well as the WSIS Forum, to advance implementation of this Compact.

We look forward to the WSIS+20 review in 2025 and invite it to identify how these processes and forums can support the contribution of all stakeholders to implementation of the Compact.

CIRA Research on Evolving and Strengthening Multistakeholder Internet Governance

Members of the technical community are invited to complete a questionnaire on the evolution of multistakeholder internet governance. The results will inform a report that can be leveraged in key policy dialogues to support strengthened multistakeholder internet governance.

You can find the questionnaire here: <http://cira.ca/research>

CIRA.CA

Deadline: Friday, November 15, 2024, 23:59 UTC

Thank you for your participation
