Cover letter

Dear gTLD Registries Team,

we would like to amend our RRA which we have signed with registrars.

We attach a redline version highlighting the two changes which are in favor of registrars:
The amended § 4d xiii now limits the Payment Security the registry can request. The amended § 6b vi allows registrar to not be bound to the confidentiality if a government authority asks for disclosure.

Please let us know how to proceed from here, and if you need further documentation from our side. We plan to publish, once the amendment has been approved, the updated RRA in our secure registrar web as an addendum to the signed contracts.

Best Regards

Bernhard Lüders
CEO
