

# Report from the Chair of the At-Large Advisory Committee to the 38<sup>th</sup> Meeting of ICANN

Cheryl Langdon-Orr

ALAC Chair

25 June 2010

# RAA and Compliance

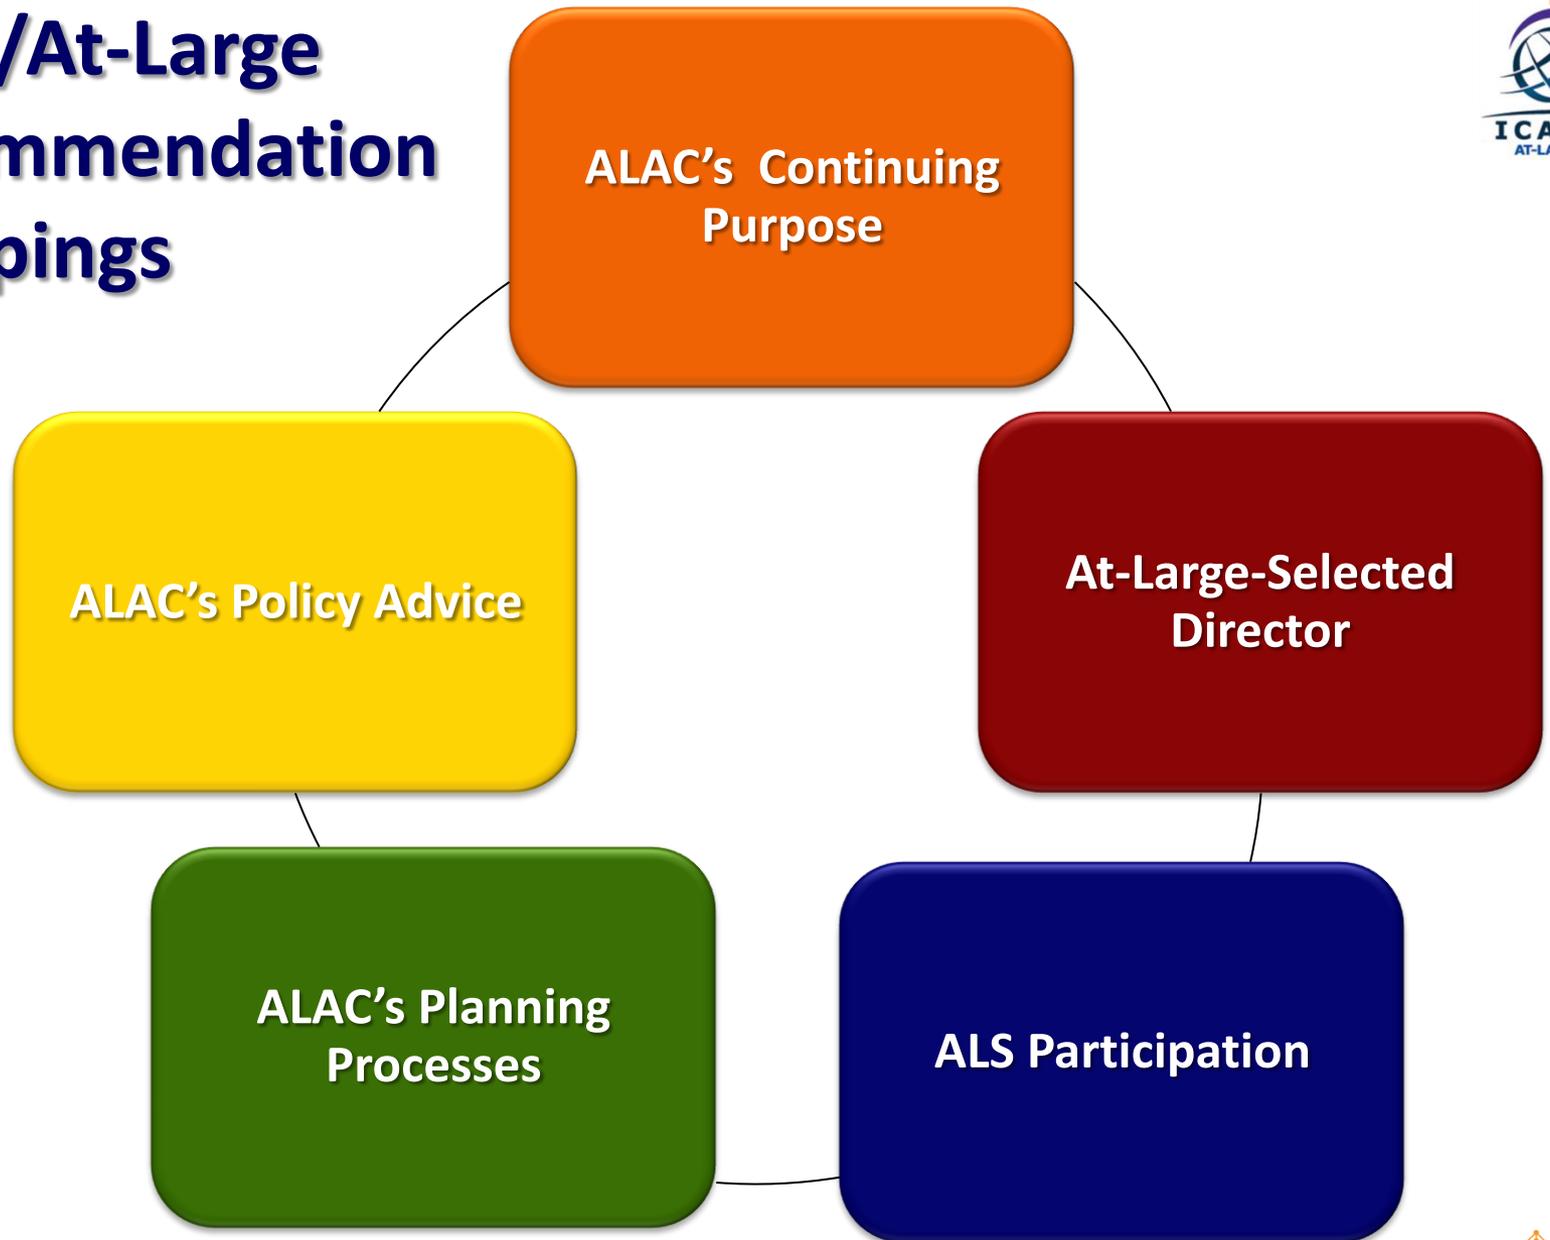

- At-Large remains concerned that insufficient funds for Compliance activities are being provided.
- ALAC has placed a high priority on this issue and strongly believes that adequate funding must be ensured.
- A Port 43 access test conducted during the Brussels meeting found almost 100 failures - clearly the WDPRS system integrity is of concern.
- A recent examination by an ALS in NARALO found 11 Registrars have "look up" service instead of WHOIS.

# Statement of the African ICANN Community on Support to New gTLD Applicants

- The ALAC wishes to make particular note of, and give the highest compliments to, the timely preparatory work and Statement of the African ICANN community regarding Support for the New gTLD Applicants.
- The ALAC has encouraged our other At-Large regions to review this statement in a manner that reflects their specific regional situation, and we will forward a cross-regional input into the work of the JAS WG.

# ALAC/At-Large Recommendation Groupings

# ALAC/At-Large Improvements
