Inter-Registrar Transfer Policy Part B PDP WG

Update

Michele Neylon – WG Chair

One World

One Internet

Background

CARTAGENA DE INDIAS
no. 39 5 - 10 December 2010
ICANN

Background

- Inter-Registrar Transfer Policy (IRTP)
- Straightforward process for registrants to transfer domain names between registrars
- Currently under review to ensure improvements and clarification
- IRTP Part B PDP Working Group

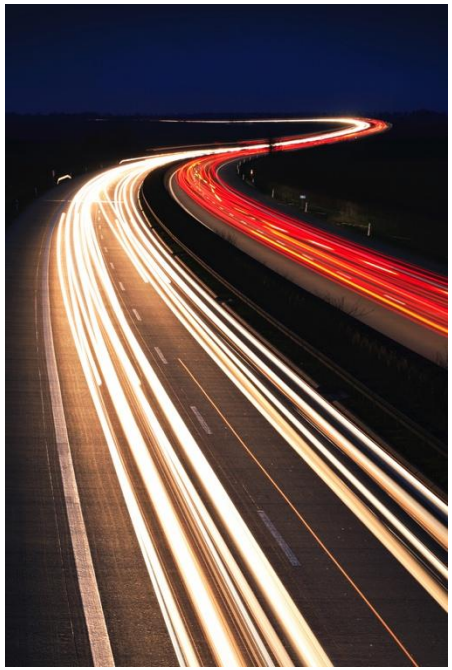
Charter Questions

- Should there be a process or special provisions for urgent return of hijacked registration, inappropriate transfers or change of registrant?
- Registrar Lock Status (standards / best practices & clarification of denial reason #7)

WG Approach

- PDP was initiated in June 2009
- Publication of Initial Report on 29 May 2010
- Opening of Public Comment Forum after meeting in Brussels
- Seventeen Community submissions received
- WG has (almost) completed review of public comments
- Deliberations have started on finalizing WG recommendations (survey conducted)

Next Steps



- Meeting in Cartagena of the WG to review results of the survey and determine which areas need further work and discussion (e.g. Expedited Transfer Reverse Policy)
- Finalize recommendations and publish these for public comment
- Review comments and finalize report
- Publish Final Report in time for ICANN meeting in San Francisco (target date)

CARTAGENA
no. 39 5 - 10 December 2010
ICANN DE INDIAS
