Date:
Tuesday, 9 March 2010 - 11:00 - 12:30

Room:
Tsavo Annex 2

Meeting Leaders:
Glen de Saint Géry GNSO Secretariat

http://nbo.icann.org/node/8886

[11:07] Nick_Ashton: Good morning/afternoon/evening to everyone round the world
[11:08] Nick_Ashton: I'm lurking to help cover support for remote participants across the various rooms, and answer Qs
[11:11] Reston: nyuck nyuck...
[11:11] Nick_Ashton: couldn't resist, too much cafe :)
[11:12] Reston: hey -- any joke will work for us -- it's just after 3am...
[11:12] Reston: so is all this chit chat visible to the CSG meeting?
[11:12] Nick_Ashton: yes
[11:13] Reston: the sound on the bridge is deteriorating -- it's almost as if Beau is talking into a different mike than the one that's going to the bridge
[11:13] Reston: i bet we're hearing Marilyn's mike
[11:14] Reston: Beau's mic isn't getting to the bridge
[11:15] Nick_Ashton: will let the techs know
[11:15] Robert_Hogg: not a tech issue. going to get Beau to speak closer to the microphone- like Marilyn is doing
[11:16] Reston: yep, makes sense. he must have been way far away from the mic
[11:17] Robert_Hogg: tech guys say reston needs to adjust feed down a bit
[11:17] Reston: we're muted...
[11:17] Robert_Hogg: apparently feedback from your PA system
[11:18] Robert_Hogg: sounds better now
Reston: didn't change anything
Reston: all mics have been off
Reston: it's coming from somewhere else?
metalitz: i heard a lot of echo when I was talking
Reston: hey Fred, are you guys muted?
Reston: 4 comes after 3
Reston: 10 does sound tricky
Reston: can't hear the caller
Reston: echo -- very muted person on the bridge
Reston: steve's coming through fine
Reston: if you're on the bridge, please mute
Reston: this is the CSG meeting
metalitz: once again, when I was speaking, I heard a lot of echo. Did anyone else?
Jarkko_Ruus: I did, I guess it echoes back from the room
Nick_Ashton: Steve, when you are speaking, is it amplified in the room where you are?
metalitz: no i am on handset
Reston: getting a little echo on the bridge
Reston: better now
Nick_Ashton: ok, chatting with techs behind the scenes
Reston: coolio
Reston: i'd like to work on tuning the bridge at 12:30 Nairobi time -- we've got a meeting between the Board and the Registries coming up at 1pm
Nick_Ashton: roger Reston
Reston: great -- ping me at mike@haven2.com
Steven: Steve: Did was the echo less for you last trans?
metalitz: Yes it was much better thanks!
Reston: echo sounded about the same here while Steve was talking
Reston: a little echo on the bridge
Reston: better
metalitz: my questions have been asked and answered
Reston: same here...
Reston: Nick? i'd like to do the tech/check on the links/bridge for the **Registry** meeting that's coming up at 1pm Nairobi time. not the link/bridge for this room. is OK?
Nick_Ashton: Sorry I was in another window
Reston: no worries
Nick_Ashton: I don't see a registry meeting on the agenda, reston?
Reston: hm...
Reston: we're showing it starting at 5am
Reston: sorry... that's EST... 1pm Nairobi time
Nick_Ashton: Sorry, chatting with colleagues, got the picture now :)
Reston: a little echo -- folks should mute
Reston: Nick -- i'
[12:18] Reston: oops
[12:18] Reston: i'm in your email inbox --- we'll take this chat over there, OK?
[12:21] Robert_Hogg: this is rob confirming that you guys have your meeting scheduled at 1pm
nairobi/5am Reston time. their will not be an adobe chat component, just the telephone bridge
[12:21] Robert_Hogg: let me know if you have a different understanding
[12:22] Reston: right -- i just want to test the audio side...
[12:24] Robert_Hogg: understood. rphysical room is same as this one so an early test is likely not
possible. i understand that craig s is on the case and will be with you in a short while
[12:24] Steven_TECH: RESTON: You sound great in the meeting room here
[12:25] Reston: coolio. we're going to jump in and turn the mics on right now. let me know if echo is
a problem
[12:25] Nick_Ashton: Just emailed everyone too re: the same
[12:26] Nick_Ashton: everyone, I'm about to do a chat module upgrade, this MAY cause your AC session
to disconnect
[12:26] Nick_Ashton: If it does, login again in 1 minute :)
[12:27] Steven_TECH: RESON: Watching the board tech dude. I am not maning the board but I see the
board
[12:27] Nick_Ashton: apologies in advance if anyone is bumped
[12:29] Steven_TECH: ping
[12:29] Nick_Ashton: read you here Steven
[12:30] Reston: how was echo during that last comment?
[12:31] Roman_Pelik: test
[12:31] Steven_TECH: no echo in real meeting room, or on stream
[12:32] mib_y3h9i9: test back from web
[12:32] Reston: great! thanks!
[12:32] MarkMonitor: we support the changes to the RAA
[12:35] MarkMonitor: can we huddle after this?
[12:35] MarkMonitor: i can give a dial-up if you can get a room
[12:43] metalitz: have to drop off -- thanks Marilyn and all guests
