Date:

Tuesday, 9 March 2010 - 11:00 - 12:30

Room:

Tsavo Annex 2

Meeting Leaders:

Glen de Saint Géry GNSO Secretariat

<http://nbo.icann.org/node/8886>

[11:07] Nick_Ashton: Good morning/afternoon/evening to everyone round the world

[11:08] Nick_Ashton: I'm lurking to help cover support for remote participants across the various rooms, and answer Qs

[11:11] Robert_Hogg: testing

[11:11] Reston: good morning Nick!

[11:11] Reston: hi Rob.

[11:11] Nick_Ashton: Gooood Morning Reston! <in best Robin Williams voice>

[11:11] Reston: nyuck nyuck...

[11:11] Nick_Ashton: couldn't resist, too much cafe :)

[11:12] Robert_Hogg: greetings Reston. You guys printing up t-shirts to commemorate ICANN No. 37 Reston?

[11:12] Reston: hey -- any joke will work for us -- it's just after 3am...

[11:12] Reston: so is all this chit chat visible to the CSG meeting?

[11:12] Nick_Ashton: yes

[11:13] Reston: the sound on the bridge is deteriorating -- it's almost as if Beau is talking into a different mike than the one that's going to the bridge

[11:13] Reston: i bet we're hearing Marilyn's mike

[11:14] Reston: ah! much better!

[11:14] Reston: Beau's mic isn't getting to the bridge

[11:15] Nick_Ashton: will let the techs know

[11:15] Reston: coolio

[11:15] Robert_Hogg: not a tech issue. going to get Beau to speak closer to the microphone- like Marilyn is doing

[11:16] Reston: yep, makes sense. he must have been way far away from the mic

[11:16] Reston: lots of echo

[11:17] Robert_Hogg: tech guys say reston needs to adjust feed down a bit

[11:17] Reston: we're muted...

[11:17] Robert_Hogg: apparently feedback from your PA system

[11:18] Robert_Hogg: sounds better now

[11:18] Reston: didn't change anything
[11:18] Reston: all mics have been off
[11:18] Reston: it's coming from somewhere else?
[11:18] metalitz: i heard a lot of echo when I was talking
[11:19] Reston: hey Fred, are you guys muted?
[11:29] Reston: 4 comes after 3
[11:30] Reston: 10 does sound tricky
[11:31] Reston: can't hear the caller
[11:31] Reston: echo -- very muted person on the bridge
[11:31] Reston: steve's coming through fine
[11:32] Reston: if you're on the bridge, please mute
[11:32] Reston: this is the CSG meeting
[11:33] metalitz: once again, when I was speaking, I heard a lot of echo. Did anyone else?
[11:35] Jarkko_Ruus: I did, I guess it echoes back from the room
[11:38] Nick_Ashton: Steve, when you are speaking, is it amplified in the room where you are?
[11:38] metalitz: no i am on handset
[11:38] Reston: getting a little echo on the bridge
[11:39] Reston: better now
[11:39] Nick_Ashton: ok, chatting with techs behind the scenes
[11:39] Reston: coolio
[11:40] Reston: i'd like to work on tuning the bridge at 12:30 Nairobi time -- we've got a meeting between the Board and the Registries coming up at 1pm
[11:40] Nick_Ashton: roger Reston
[11:41] Reston: great -- ping me at mike@haven2.com
[11:41] Steven: Steve: Did was the echo less for you last trans?
[11:42] metalitz: Yes it was much better thanks!
[11:42] Reston: echo sounded about the same here while Steve was talking
[11:52] Reston: a little echo on the bridge
[11:52] Reston: better
[11:59] metalitz: my questions have been asked and answered
[11:59] Reston: same here...
[12:03] Reston: Nick? i'd like to do the tech/check on the links/bridge for the ****Registry**** meeting that's coming up at 1pm Nairobi time. not the link/bridge for this room. is OK?
[12:08] Nick_Ashton: Sorry I was in another window
[12:08] Reston: no worries
[12:09] Nick_Ashton: I don't see a registry meeting on the agenda, reston?
[12:10] Reston: hm...
[12:10] Reston: we're showing it starting at 5am
[12:12] Reston: sorry... that's EST... 1pm Nairobi time
[12:16] Nick_Ashton: Sorry, chatting with colleagues, got the picture now :)
[12:17] Reston: a little echo -- folks should mute
[12:18] Reston: Nick -- i'

[12:18] Reston: oops

[12:18] Reston: i'm in your email inbox --- we'll take this chat over there, OK?

[12:21] Robert_Hogg: this is rob confirming that you guys have your meeting scheduled at 1pm nairobi/5am Reston time. their will not be an adobe chat component, just the telephone bridge

[12:21] Robert_Hogg: let me know if you have a different understanding

[12:22] Reston: right -- i just want to test the audio side...

[12:24] Robert_Hogg: understood. rphysical room is same as this one so an early test is likely not possible. I understand that craig s is on the case and will be with you in a short while

[12:24] Steven_TECH: RESTON: You sound great in the meeting room here

[12:25] Reston: coolio. we're going to jump in and turn the mics on right now. let me know if echo is a problem

[12:25] Nick_Ashton: Just emailed everyone too re: the same

[12:26] Nick_Ashton: everyone, i'm about to do a chat module upgrade, this MAY cause your AC session to disconnect

[12:26] Nick_Ashton: If it does, login again in 1 minute :)

[12:27] Steven_TECH: RESON: Watching the board tech dude. I am not maning the board but I see the board

[12:27] Nick_Ashton: apologies in advance if anyone is bumped

[12:29] Steven_TECH: ping

[12:29] Nick_Ashton: read you here Steven

[12:30] Reston: how was echo during that last comment?

[12:31] Roman_Pelik: test

[12:31] Steven_TECH: no echo in real meeting room, or on stream

[12:32] mib_y3h9i9: test back from web

[12:32] Reston: great! thanks!

[12:32] MarkMonitor: we support the changes to the RAA

[12:35] MarkMonitor: can we huddle after this?

[12:35] MarkMonitor: i can give a dial-up if you can get a room

[12:43] metalitz: have to drop off -- thanks Marilyn and all guests
