[16:12] Michele_Ney: Nick :)

[16:15] Eric_Brunne: audio and video stream lost

[16:17] Nick_Ashton: If you lose AC, use the audio stream for the meeting, from the agenda page

[16:17] Michele_Ney: already done

[16:17] Michele_Ney: adobe connect has been acting up:)

[16:18] Nick_Ashton: power fluctuations causing it

[16:18] Michele_Ney: ugh

[16:20] Robert_Hogg: apologies for connectivity issue in adobe connect. we are experiencing rolling brownouts that are affecting our equipment here. we do appreciate your patience

[16:21] Reed_Quinn: doing our best with what we have to work with at the moment

[16:29] Michele_Ney: Are they online???

[16:29] Michele_Ney: Since obviously I can't pick something up from beside a door in Africa ..

[16:29] Nick_Ashton: I will ask for the document now, and get it posted to the agenda page ASAP

[16:30] Michele_Ney: Nick - it's not a big deal, but it's amusing that someone would say something like that in this meeting :)

[16:30] Michele_Ney: the irony :)

[16:30] Nick_Ashton: The document I referenced is available online, on the agenda page, in ES, FR, and EN

[16:38] Nick_Ashton: One of the limits to remote participation is that our cameras are not panoramic :)

[16:39] Nick_Ashton: Hey Marilyn and Ayesha :)

[16:43] Nick_Ashton: I'm typing furiously

[16:43] Michele_Ney: who is speaking?

[16:43] Michele_Ney: oh wait - no surprise there :)

[16:43] Nick_Ashton: Sebastien Bachollet

[16:43] Michele_Ney: Nick - he nearly always speaks in French :)

[16:44] Nick_Ashton: Of course - we have interpretation, good to have people use it

[16:44] Michele_Ney: meh - I'm not using it

[16:44] Michele_Ney: I prefer when he speaks French tbh :)

[16:45] Nick_Ashton: Due to equipment issues, interpretation does not switch between languages on the english channel, what we get is 'floor sound' rather than a true english channel

[16:45] Nick_Ashton: The equipment we asked for and the equipment we received are two very different things

[16:45] Michele_Ney: I already told Rod that the main issue with ICANN is that nobody has a clue what the hell it does

[17:06] Robert_Hogg: As we start Part 2, reminder to you all that you can type a question in this chat and I will relate it over the microphone here in the physical room.

[17:07] Fouad_Bajwa: .

[17:07] Nick_Ashton: voluntary

[17:07] Fouad_Bajwa: Can we ask questions here?

[17:08] Robert_Hogg: yes Fouad

[17:08] Phil_Buckin: Rob Question I am trying to promote my .royal application with HRH and other VIP business people in UK If only I had a tool kit to explain all ICANN issues . ICANN needs email addresses on its website . Marilyn Cheryl emails please !!

[17:10] Nick_Ashton: Can everyone see the poll and respond to it?

[17:10] Robert_Hogg: yes

[17:10] Michele_Ney: Phil - emails for what???

[17:12] Robert_Hogg: Phil. I recommend that you subscribe to the monthly policy update. I'd like your opinion on whether its level and info and links are useful. We generally don't produce email addresses on the web site b/c of spam concerns

[17:12] Robert_Hogg: Phil, send me an email at robert.hoggarth@icann.org and i'll get you the links

[17:18] Nick_Ashton: could run a bit late

[17:18] Phil_Buckin: Rob - many thanks . I have subscribed recently .

[17:23] Nick_Ashton: Thanks Alan :)
