- DNSSEC : signing the root IANA and TAR
- Whois database accuracy
- IANA WG Work Plan
- Internal management (membership)

# Work Plan Background

- The new IANA WG Charter foresees a work plan to be established and published at the beginning of each calendar year ;
- A draft for the IANA WG work plan has been prepared in the IANA WG ;
- The draft was submitted to ccs for consultation at the beginning of June ;

# Work Plan Structure

The work plan is proposed in two documents :

- A first one that describes IANA's context and introduces IANAWG activities, taking into account the goal and scope of the working group:

<http://www.ccnso.icann.org/workinggroups/draft-ianawg-context-09jun08.pdf>

- A second one proposes a timeline for the IANA WG activities for 2009:

<http://www.ccnso.icann.org/workinggroups/draft-ianawg-timeline-09jun08.pdf>

# Participation and activities

It has to be stressed that ccNSO IANA WG participation is based on volunteering and only involves voluntary work. Additionally ... ccNSO IANA WG progresses may be subject to the responsiveness of stakeholders that are not members of the group.

⇒ milestones and indications can be foreseen in the ccNSO IANA WG timeline, but we can't commit on fixed deadlines...

# Next Step

THIS IS A DRAFT :

THIS IS TIME TO PROVIDE YOUR COMMENTS AND VIEWS !

IF YOU WOULD LIKE THE IANA WG TO LOOK AT  
SOMETHING : CONTACT ME OR THE GROUP.

⇒ Proposed timeline would be to approve the 2009  
work Plan in Cairo

# PENDING

(to be improved in the WP)

- CONTINUITY OF THE WORKING GROUP ;
- OVERLOAD DUE TO INTERNAL RULES (MEMBERSHIP PROTOCOL);
- SOME OF IDENTIFIED AREAS THAT WOULD NEED OUTCOME FROM THE WG HAVE NO CLEAR ACTIONS ASSOCIATED WITH (SEVICE LEVEL FOR EXAMPLE) ;
- ....

THANKS FOR YOUR  
ATTENTION.
