

Meeting Committee activities

- Monthly conference calls
- In-person meeting on June 27, 2007

Changes for Los Angeles meeting

- Completing agendas early
- Locking down blocks of time that are standardized, so that coffee-breaks and lunches are at standard times
- Experimenting with public forum format
- Experimenting with GNSO “constituency day,” having Board members spend half a day with a particular constituency

More changes

- Continued focus on translation
- Experimentation with meetings format
- Experimentation with trained facilitators
- Present goals at outset of meeting – then report at the end of the week as to whether they have been met
- Avoid canned presentations

More changes

- No last-minute schedule adjustments
- Experiment with “tracks” that are easy to follow (workshops in parallel with other meetings)
- Cannot avoid conflicts; choices will have to be made
- Continued focus on professionalism of meetings planning
