Purpose of this discussion

- Update on the status of the development of the FY10 Operating Plan and Budget
- Provide highlights of the draft FY10 Operating Plan and Budget
- Further engage the community in refining key assumptions, spending priorities and other choices
- Ensure that the Board, after community feedback, is prepared to adopt the budget at the Sydney ICANN meeting
Overview of the FY10 Budget

- Community feedback confirmed plan to keep growth under 5%

- Draft posted 17 May follows framework posted prior to Mexico City
- Process allowed for more extensive/deeper community consultation
- Community feedback on Framework synthesized from comments
  - In meetings in Mexico City
  - On conference calls with community groups
  - Via online public fora, twitter
- Draft FY10 Operating Plan and Budget posted 17 May
  - More comprehensive analysis
  - More views of budget (functional and EAG)
- Further community feedback encouraged
  - conference calls before Sydney
  - Online public fora
  - In meetings in Sydney

Overview of the FY10 Budget (cont)

- Revenue of $63.6 million, reflects a registrar fee reduction to $0.18 to accelerate universal adoption of the new RAA
- Operating expenses of $54.4 million, 4.9% growth over FY09 (vs. 30.1% growth in FY09 over FY08)
- Total expenses of $58.7 million with bad debt, depreciation and contingency
- Contribution to reserve of $4.9 million, less than strategic plan
- Revenues and most expenses from new gTLD launch covered in separate amendment, not in this budget.

- FY10 Operating Plan/Budget voted on by Board in Sydney, 26 June

The Strategic Plan

ICANN’s strategic plan describes priorities and deliverables over a 3 year planning horizon. The 2009-2012 approved Strategic Plan prioritizes activities as follows:

1. Implement IDNs and new gTLDs
2. Enhance security, stability and resiliency in the allocation and assignment of the Internet’s unique identifiers
3. Monitor the depletion of IPv4 address space and provide leadership towards IPv6 adoption
4. Improve confidence in the gTLD marketplace
5. Strive for excellence in core operations
6. Strengthen processes for developing policy
7. Strengthen ICANN’s multi-stakeholder model to manage increasing demands and changing needs
8. Globalize ICANN’s operations
9. Ensure financial accountability, stability and responsibility
Snapshot of the Operating Plan

- New gTLD implementation complete and launch
- Some growth in compliance, technology operations, and security
- Little or no growth in most ICANN operations

Expense Highlights

- Operating expenses: $54.4 mil for FY10 vs. $51.8 mil in FY09
- Growth rate of 4.9%, compared to 30% growth trend of recent years.
- Given world economic climate, continue to consider areas for deferral, costs reduced

- Focused spending in certain areas is called for:
  - new gTLD and IDN: $8.8 million to complete implementation
  - Contractual compliance
  - Technology operations infrastructure, 16.9% growth, to provide adequate support for DNSSEC and other operational enhancements
  - Global engagement, increased staffing in Asia, increased translation budget, slight increase in travel support
Contributions Highlights

• Strategic plan calls for reserve fund of one year’s operating expenses within three to five years (about $10 million/year)

• FY10 contribution budget forecast at $4.9 million; 35% more than the $3.5 in FY09 budget
  • Still investing in new TLD and IDN process; will complete in FY10
Separate new gTLD budget Amendment

- New gTLD Program expected to launch in FY10; will post separate budget amendment about 90 days prior to launch

- Detailed information available in fees and cost considerations paper posted in Oct 2008 and responses to comments posted in Feb 2009

- Some new gTLD costs are included in the proposed FY10 Budget Framework

- But, most costs to be included in a separate budget amendment

Three Year Financial Impact Analysis

Implications:

• Model demonstrates revenue covering cost for new gTLD application process
• New gTLD operations naturally impose requirement for detailed cost accounting and reporting
• As models mature, ICANN should consider opportunities to reduce fees and mix of revenue sources
• Historical contributions to reserve fund recouped, and likely to attain full funding of Reserve Fund
