Timelines

- Developing registration rules
 - The Concept was published on April 17, 2009
 - The Concept had been discussed by May 15, 2009
 - The RF Government's endorsement is expected in June – July 2009
 - Preparation of documents, technical implementation - between June and October 2009 (sync Fast Track)
 - The documents to be published by September 2009
 - Accreditation of registrars –September 2009
- Approval of the Fast Track procedure by ICANN – October 2009
- Priority registration – November 2009
- Delegating the PΦ domain name – Dec 2009 – Feb 2010
- Open registration – March 2010

General Principles

Rules of registration in domain .PΦ will be analogous to those in domain .RU

Exceptions:

- A different system of reservation of domain names for the government's need and geographic domain names
- Stop-list at the level of the registry
- Domain administrator identification

Types of Domain Names

- Names reserved for:
 - The government's needs;
 - Geographic locations;
 - The Coordination Center and the Technical Center's needs
- Banned names (stop-list):
 - Definitions that present or contain words that contravene public interests, principles of humanity and morality (more specifically, obscenities, calls of an anti-humanist nature, which injure the human dignity or religious sentiments, etc.)
- Personal (regular) domains

Opening of Registration by Stages

- **Stage 0. Registration of domain names by lists**
 - Domain names for the government's needs
 - Geographic domain names
 - Domain names for the Coordination Center and the Technical Center's needs
- **Stage 1. Priority registration**
- **Sub-stage 1.1.** Within the period of the priority registration:
 - Priority registration of domain names for owners of exclusive rights for trade marks
 - Collection of applications from public agencies, federal bodies of executive power, governments of Russian regions, and municipal governments of the largest regional cities
- **Sub-stage 1.2.** Upon expiration of the priority registration deadline :
 - Registration of domain names by applications received from public agencies, federal bodies of executive power, governments of Russian regions, and municipal governments of the largest regional cities.
- **Stage 2. Open registration**

Open registration

Open registration will be exercised in several stages, which will differ from each other by:

- Length, and
- The domain name registration service costs

Thank you!
