

# Uniform Rapid Suspension system (URS)

*Workshop, ICANN 45, Toronto*

*18 October 2012*

# Agenda

1. Introduction, brief update
2. URS suggestions from potential providers
3. Comments and discussions
4. Process aspects
5. Conclusions

# Introduction

- A complement to UDRP for New gTLDs, to resolve clear-cut cases of trademark infringement thru domain suspension
- Intended to be fast and inexpensive (500 USD)
- Unclear if objectives can be met with the procedure as drafted, suggestions for changes gathered in Prague
- Recent initiatives – multiple tracks
  - Prague suggestions compiled, as a starting point
  - RFI issued 24 September, to gather information
  - GNSO and ALAC contacted, for process advice
  - New web page at <http://newgtlds.icann.org/en/applicants/urs>
  - Sessions on 3 and 18 October, to discuss and find a way forward

Thank You
