Buenos Aires
November 2013

Main advantages of IXP

- Stable routing

- Lower latency

- Lower cost per byte (means better QOS)

- Distance is risk

- Jurisdiction

Importance of IXP

- Hosting and content

- Enables legislation

- Becomes national asset

- eGovernment

Impact

- Brazil privacy law

- New national IXP initiatives

- Regionalization

That's it?

- First steps

- IETF88: Encrypt everything.

- The Internet is young.
