New gTLD Subsequent Procedures

Overview

Community efforts, such as a PDP and various reviews, are underway to take into consideration the 2012 New gTLD round and seek ways to improve, refine, or develop new policy recommendations for new gTLDs, acknowledging that there is existing new gTLD policy from the GNSO's 2007 Final Report on the Introduction of New gTLDs.
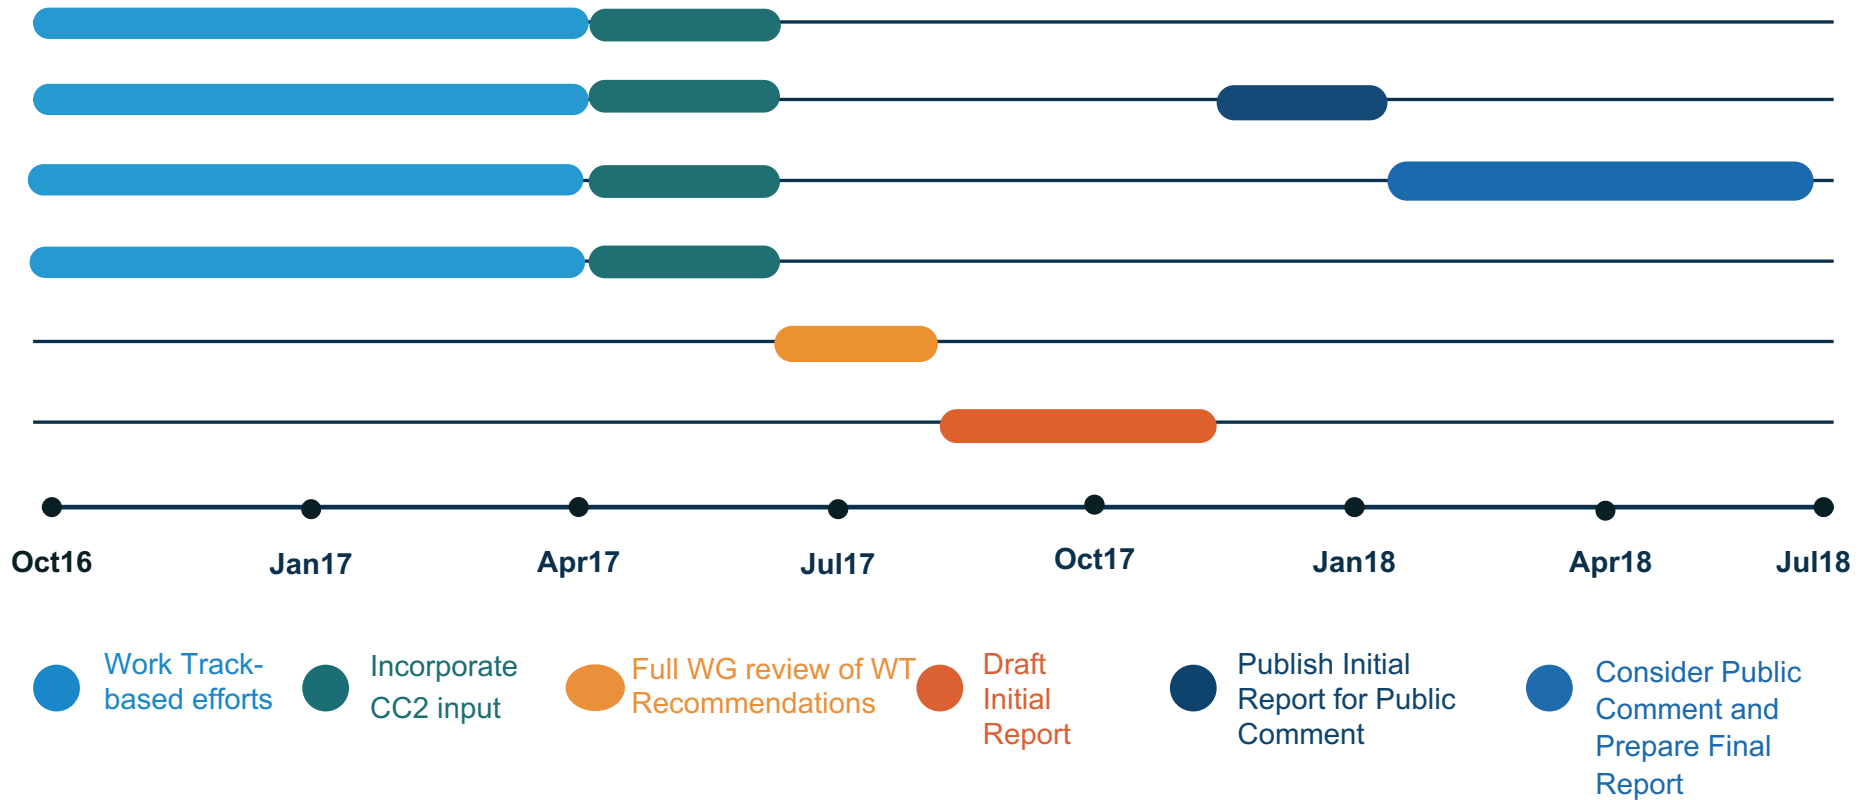

What to Expect at ICANN57

An open face-to-face working session took place on Thursday, 3 Nov to continue progress made on a number of different subjects, such as Applicant Support, the base registry agreement, objections, the evaluation criteria, and other topics.

How to Participate

GNSO WG's are open to anyone who would like to participate. The WG has made an effort to try and select times are are more hospitable to those in APAC (e.g., share the burden).

Timeline, a Different View

Timeline (Oct16 – Jul18):
- Work Track-based efforts (light blue)
- Incorporate CC2 input (teal)
- Full WG review of WT Recommendations (orange)
- Draft Initial Report (dark orange)
- Publish Initial Report for Public Comment (dark blue)
- Consider Public Comment and Prepare Final Report (blue)

To Summarize

There are 4 separate Work Tracks working on a number of different subjects. Their findings will be dependent upon input from the community and will be reviewed as a full WG.
