THE NEW NARALO MONTHLY CALLS PRESENTS
INTERNATIONALIZATION OF DOMAIN NAMES - OPPORTUNITIES AND RISKS
Bill Jouris- Presenter
JANUARY 11, 2021
DOOR OPENS AT 20H00 UTC*
A year ago, I did a presentation on the basics of IDN: what it meant and what was going on. This time, we talk in more detail about it. We look at both what new opportunities it offers for those whose language of choice is not English. And we look at what (unintended) negative consequences are possible. Sometimes it's just a failure to communicate. But sometimes IDN can facilitate DNS Abuse.
THE NEW NARALO MONTHLY CALLS PRESENTS
DEVELOPMENT AND IMPLEMENTATION OF ACCESSIBILITY AT ICANN
Judith Hellerstein - Presenter
JULY 19,2021
DOOR OPENS AT 19:00 UTC*
This talk looks at the history of Accessibility development and implementation at ICANN
What is Accessibility? Does the term apply to one group only? What was the motivation that brought Accessibility discussions to ICANN? Where is the intersection among DNS Accessibility, and ICANN? What is the perception of how well is Accessibility understood within ICANN communities? Is Accessibility considered during policy development processes? How do Accessibility considerations affect the ICANN requirement to serve the global public interest? What can be recommended to make sure that Accessibility is a "constant" in ICANN? and more...
This is a great opportunity to increase your knowledge
THE NEW NARALO MONTHLY CALLS PRESENTS
HISTORY AND DEVELOPMENT OF THE DNSSEC
Dr.Pablo Rodriguez -Presenter
MAY 10, 2021
DOOR OPENS AT 19:00 UTC*
THE NEW NARALO MONTHLY CALLS PRES
DNS Abuse or more broadly, Cybercrime, continues to be a threat with widespread implications. Whether it's phishing, pharming or other attempts at social engineering, the results can be disastrous, including malware and identity theft. In this session, Jonathan will discuss DNS Abuse from a practical standpoint, providing some advice on what to watch out for and how to protect yourself from cyber criminals online.
THE NEW NARALO MONTHLY CALLS PRESENTS
TRANSFER POLICY REVIEW
Panelists:
• Sarah Wyld, Tucows.com
• Daniel Nanghaka, At-Large
• Dr.James Galvin, Donuts.com
Moderator:
• Glenn McKnight
DEC 13, 2021
DOOR OPENS AT 20:00 UTC*
90 MINUTES
The Transfer Policy (TP), formerly known as the Inter-Registrant Transfer Policy (IRTP), is an ICANN consensus policy that governs the procedure and requirements for registrants to transfer their domain names from one registrar to another.
A PDP working group has been commissioned to determine if policy changes are needed to improve the ease, security, and efficiency of inter-registrar and inter-registrant transfers.
The moderator will put the story behind the review of the Transfer Policy in context and lead the discussion to give the panelist's perspective on how effective it has been over these years. What was the motivation behind its creation, and now its current? What is the status of the PDP? What are the most controversial issues among the current members and why? What is the TP issues agenda for the next year? Etc.

THE NEW NARALO MONTHLY CALLS PRESENTS
THE NEW IP: MYTH OR REALITY
Alain Durand
Principal Technologist
ICANN,Office of the CTO
SEPT 13, 2021
DOOR OPENS AT 19:00 UTC*
"New IP" is a proposal from Huawei, a company based in China. It aims at replacing the current suite of Internet protocol. It has been pushed heavily in places like the International Telecommunication Union (ITU) but has not been adopted.
This presentation will take an in-depth look at what is New IP, how it fits with other proposals in the same domain, its current status...
The presentation will highlight the consequences of the architectural changes New IP proposes, its relationship with the set of unique identifiers ICANN helps to coordinate and will discuss deployability issues.

THE NEW NARALO MONTHLY CALLS
EXPEDITE
DEVELOPM
(EPDP) ON
INTERNATIONALIZED
DOMAIN NAMES
(IDN)
Abdulkarim Oloyede - Presenter
AUGUST 9, 2021
DOOR OPENS AT 19:00 UTC*
The following questions and more will be considered during this stepper webinar:
• What are IDN, IDN Variants, PDP, EPDP, and Universal Acceptance (UA)?
• Why is EPDP in IDN important to the end user?
• The ICANN community has been working on IDN since 2003, why did it take 10 years to work on an IDN policy?
• Why an EPDP and not a regular PDP?
• How are IDNs incorporated (delegated) in the Domain Name System (DNS)?
• What are IDN variants? Why are they important?
• Will UA be considered in the EPDP?
• What else will be considered in the EPDP?

THE NEW NARALO MONTHLY CALLS PRESENTS
DEVELOPMENT AND IMPLEMENTATION OF HUMAN RIGHTS AT ICANN
Avri Doria - Presenter
APRIL 12,2021
DOOR OPENS AT 19:00 UTC*
This talk looks at the history story of human rights development and implementation discussions at ICANN. What was the motivation that brought human rights discussions to ICANN? Where is the intersection among DNS, human rights, and ICANN? What is the perception of how well are human rights understood within ICANN communities? Are human rights issues taken into account during policy development processes? How do human rights considerations affect the ICANN requirement to serve the global public interest? and more...
This is a great opportunity to increase your knowledge of this facet of ICANN.
