

Laws and Regulations in the European Union

French and EU perspective

- A strong willingness to strengthen regulators
 - Creation of a new authority from the merge of the French audiovisual regulator (CSA) and the Hadopi (piracy agency) —> Audiovisual and Digital Communication Regulatory Authority (Arcom)
 - Creation of the PEReN, an expert unit dedicated to digital regulation attached to the Directorate-General for Enterprise —> with the aim to assist regulators in their supervisory powers
- Steering the ship toward ecology and resilience

French and EU perspective

- French Presidency of the EU Council
 - More sovereignty for Europe
 - Advancing cybersecurity resilience in Europe
 - —> The revision of the NIS Directive (NIS 2) and the ongoing debate on data accuracy
 - New rules on cybersecurity of network and information systems (NIS)
 - Political agreement reached on May 13, 2022
 - —> what use case for a ccTLD?
 - DSA and DMA amongst the French Presidency's priorities
 - DSA : political agreement reached on April 23, 2022
 - DMA: political agreement between the colegislators reached on March 25, 2022
