GETSTARTED.FOX

ONE.FOX

The screenshot shows a web browser window with the address bar displaying "one.fox". The page header includes navigation links for "FOX Apps", "One FOX FAQ", and "Governance & Compliance". The main navigation bar features the "ONE FOX" logo, a "One FOX" title, and utility links for "Saved Items", "Notifications", and a user profile icon, along with a "+ Submit Post" button. The main content area is a banner with a background image of a woman on the left and a football player on the right. The text "SHERRI SHOW" is visible on the left and "NFL ON" on the right. A large "ONE FOX" logo is centered in the banner. At the bottom of the banner, there is a "FOX" logo and a contact icon (envelope with @ symbol). On the far right of the banner, there are menu icons (three horizontal lines and a grid).

.FOX Registrations

— Domain Registrations

.FOX Domain Status

.FOX Benefits

BRAND AWARENESS

Many business units are excited to use the .FOX domain extension as it provides brand awareness while keeping the domain short

COMPANY SECURITY

FOX Security Team uses .FOX domains as a part of their strategy ranging from automated SSL Validation to limiting links in corporate emails to only use .FOX domains

AVAILABILITY

We acquire many after market domain names and it can be quite costly. .FOX domains gives our business units the opportunity to register their desired keyword in a .FOX domain without the enormous price tag

dotSky
Keeping customers safe

Incredibles 2

Owning your dotBrand Top Level Domain (TLD)... more than just vanity

- Only a brand can own their dotBrand TLD providing their application is successful with ICANN.
- Changes to GDPR means it is harder to gauge the ownership of domain names now so owning your dotBrand is more valuable than ever before because it provides the consumer with reassurance that they are visiting a companies legitimate site simply by the domain name ending with a branded TLD.
- As website personalisation with dotBrand TLD's becomes more familiar to the consumer it becomes apparent that owning your dotBrand TLD is more than just making your website look "on brand" or allows for a shorter domain to be used, known as a vanity domain name.

As a company that owns their dotBrand TLD we see the use of dotSky as more than just aesthetically pleasing because only Sky can own dotSky. We found a good use case when it came to sending out email communication to our consumers and also Sky staff. We have always used third parties to send out our email communication to customers. Whether that be an invite to an event or a reply to a competition, updates on products and services and for Sky staff, even HR communication is managed externally.

We want to ensure whoever receives an email from Sky is not questioning its authenticity.

So how has dotSky helped with this part of the business?

- We do not allow third parties to spoof our emails, something that felt like a challenge to monitor before we owned our dotSky registry.
- A dotSky domain name has allowed us to provide peace of mind to our consumers and staff that they are receiving a legitimate email from Sky.
- We registered **contact.sky** as the primary domain name and set up relevant sub domains within this zone for each service that requires a third party to send out email communication on our behalf.
- The DNS records are restricted, we do not allow NS and CNAME delegation as this defeats the purpose of controlling who sends out emails on our behalf as these records mean we lose all control.
- Each sub domain is set up with an SPF and DKIM record from the mail provider and the Sky messaging team authenticates these records by adding a DMARC record. The use of the tilde (~) is not approved in any TXT record, the record must end – **all** not **~all** where the tilde represents a wildcard and **–all** means only this IP is authorised to send out mail for this domain.
- The DMARC record is an email authentication protocol. It is designed to give email domain owners the ability to protect their domain from unauthorised use, commonly known as email spoofing

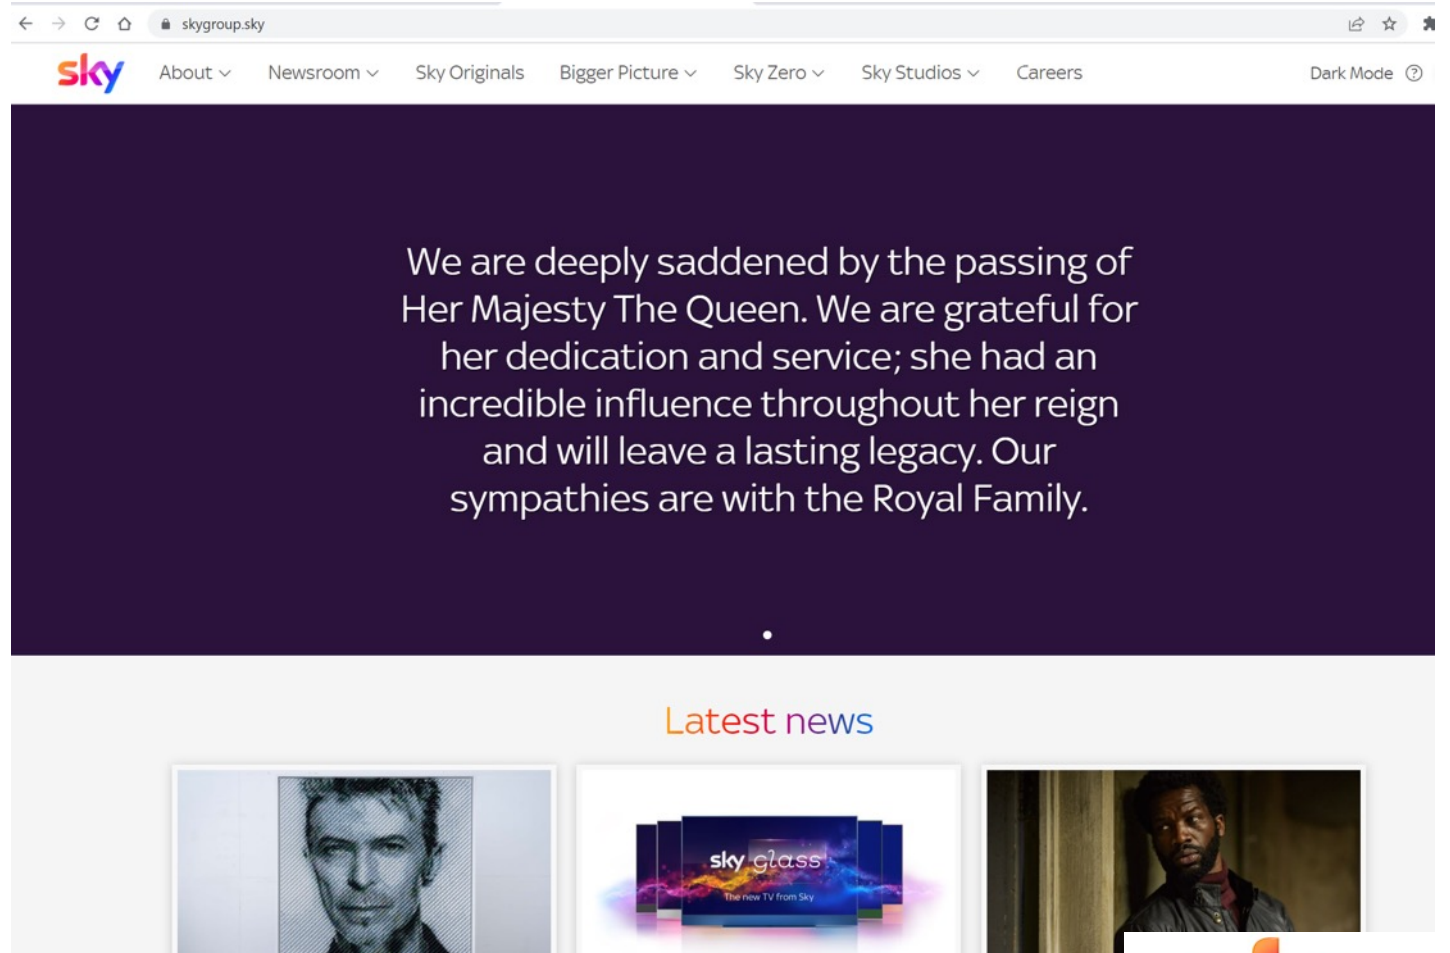

What have we set up?

- For products you have added to your basket but not checked out with - **@yourbasket.contact.sky**
- For products and services – **@notifications.contact.sky**
- For corporate communication – **@corporate.contact.sky**
- For our cyber security team - **@cybersecurity.contact.sky**
- For tech support help - **@techdesk.contact.sky**
- For HR communication to Sky staff - **@hr.contact.sky**
- For our engineer reward scheme - **@engineerrewards.contact.sky**
- For mailroom deliveries – **@skymailroom.contact.sky**

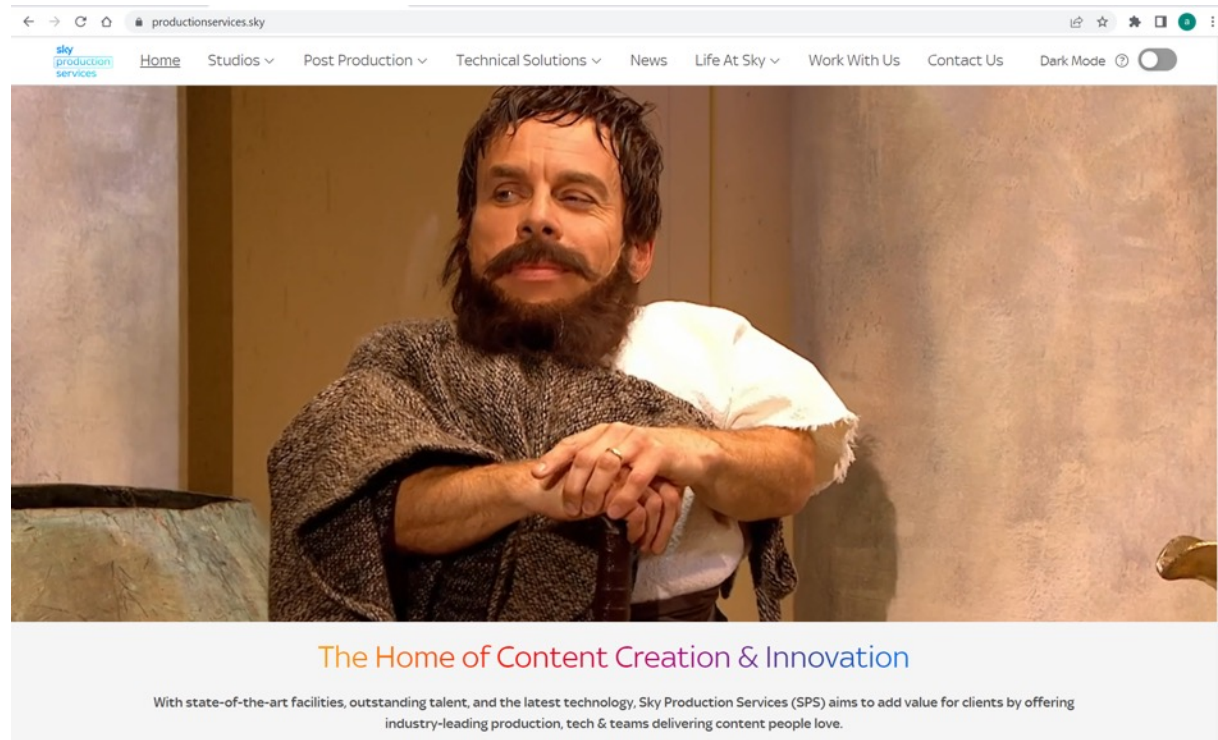

Skygroup.sky
Sky's corporate site
migrated from
corporate.sky.com

The screenshot shows a web browser at the URL skygroup.sky. The navigation bar includes the Sky logo and links for About, Newsroom, Sky Originals, Bigger Picture, Sky Zero, Sky Studios, and Careers. A Dark Mode toggle is visible in the top right. The main content area features a dark purple background with a white text message: "We are deeply saddened by the passing of Her Majesty The Queen. We are grateful for her dedication and service; she had an incredible influence throughout her reign and will leave a lasting legacy. Our sympathies are with the Royal Family." Below this message is a section titled "Latest news" with three news items: a portrait of David Bowie, a "sky glass" TV advertisement, and a portrait of Chiwetel Ejiofor.

Productionservices.sky

(originally skyproductionservices.com, we moved a .com domain to a .sky domain)

Today.at.sky
several sub domain set ups to at.sky

Brand TLDs in Japan: An Inside Look

2022/9/18

Japanese Brand TLDs

- 46 current brand TLDs in Japan (43 companies)

BRIDGESTONE

Canon

HITACHI

SONY

HONDA

 **PlayStation®**

SHARP

GMO
INTERNET GROUP

 **TOYOTA**

FUJITSU

Hisamitsu

Panasonic

'TORAY'

And more...

Brand TLD Usage

- 35 of the brand TLDs are actively used with 510 registrations.
- Unique Site 40% (205), Redirection 8%
- In Preparation domains are non-resolving but many times used for internal usage like email or Intranet

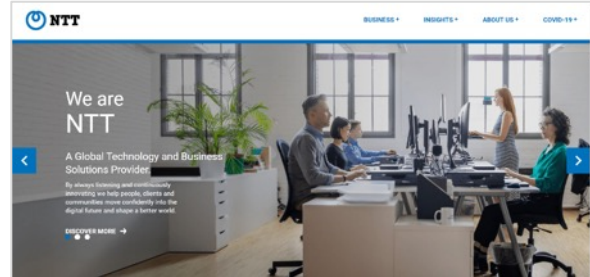

Source : GMO BRAND SECURITY, 2022.8
 ※ Excludes registry function related domains

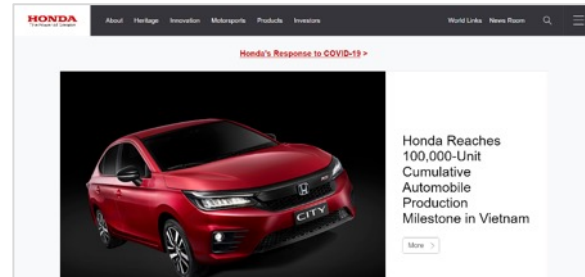

Global Corporate Site Expansion

- Starting with Canon, 30 companies now use “global”, 15 of which are in Japan

Corporate Site Transition Pattern: 「global.brand」

global.ntt
Unique Site

global.honda
Unique Site

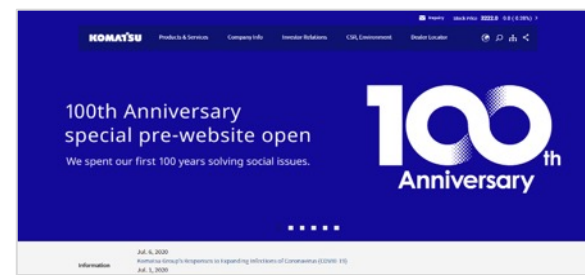

global.hisamitsu
Unique Site

※ Japanese brands using “global” include 「.brother」, 「.canon」, 「.hisamitsu」, 「.honda」, 「.ntt」, 「.pioneer」, 「.sharp」, 「.softbank」, 「.toyota」, and 「.dnp」

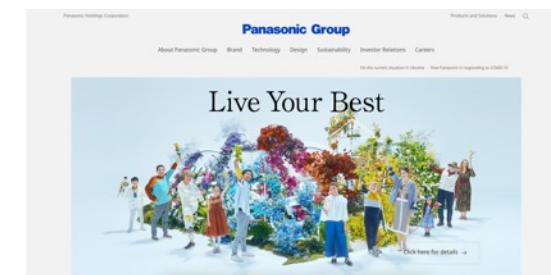

Corporate Site Other Transition Patterns : 「group.」, 「home.」, 「holdings.」, and more

group.softbank
Unique Site

home.komatsu
Unique Site

holdings.panasonic
Unique Site

Brand TLD Usage Strategy: Canon

- Strategic Goal: Corporate Inner Branding and Service Branding

Canon Brand TLD Strategy

- Utilizes .canon for corporate site renewal
(lead 「global.brand」 expansion)
- Gradually **spread awareness** about .canon internally and through PR
- **Inner branding** by having group companies use .canon
- Partial (Asia) **ccTLD structure systemization** through site restructure and increasing governance
- **Increase company service sites**

Inner Branding and Service Branding

medical.canon
Unique Site

※ Used for Canon Medical Systems that came out of an M&A of Toshiba Medical Systems.

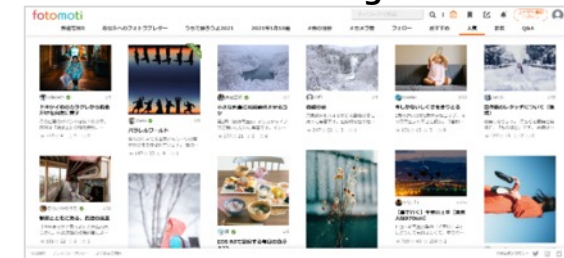

vn.canon
Unique Site

※ Development of ccTLD .canon domains in countries of operation. A common global company usage pattern.

Began applying to service sites → Service Branding

image.canon
Unique Site

fotomoti.canon
Unique Site

Brand TLD Usage Strategy: Sharp

- **Strategic Goal: Domain Structure Development, Global Site Development and Subdomain Usage**

Sharp Brand TLD Strategy

- Utilizes .sharp to overcome difficulty of company name domain acquisitions
- Organization of a **complex domain structure**
- After developing 9 「ccTLD.sharp」 country sites for Asia, use 「jp.sharp」 subdomains for HQ corporate site
 - Structure product pages under 「ccTLD.sharp」
- **.sharp subdomain use**

Global Site Development · Strengthen Governance

Development of global branches → HQ also develops under 「jp.sharp」

Challenge

sharp-***.ccTLD
sharp-***.com
sharpcountryname.com

Difficulty to acquire 「sharp」 related domains in certain countries makes it difficult for consistent and simple naming

ex)

Hungary

www.sharp.hu

Ireland

www.sharp-electronics.ie

Germany

www.sharp.de

/ www.sharpsde.com

(Sharp Devices Europe)

→ Started with developing sites in .sharp for 9 Asian countries

corporate.jp.sharp

Japan corporate site also uses subdomains in .sharp

cocoroplus.jp.sharp

Uses a subdomain for online store 「COCORO+」

Brand TLD Usage Trends

- Unique Sites for **Asian Country Sites (two-letter)** and **Product and Brand PR**

Corporate Site Transition	Group Company Development	Product, Service, and Brand Site Development	Sponsor·Event Marketing Sites
<p>Many 「global.brand」 strings</p> <ul style="list-style-type: none"> • Canon • Sharp • SoftBank • Toyota • Honda • NTT • Brother • Hisamitsu • Komatsu • Pioneer 	<p>Overseas Branches 「ccTLD.brand」</p> <ul style="list-style-type: none"> • Canon • Sharp • Hisamitsu <p>Apply Brand TLD for Domestic and Global Companies</p> <ul style="list-style-type: none"> • Canon • Toray • Komatsu (Partial) 	<p>Organization of Product Pages under Brand TLD Site</p> <ul style="list-style-type: none"> • Canon • Sharp • Toyota • Toray • Hisamitsu • Komatsu <p>Apply to Service Sites</p> <ul style="list-style-type: none"> • Canon • Sharp 	<p>Sponsor·Event Sites</p> <ul style="list-style-type: none"> • Canon • Bridgestone • Hisamitsu • Fujitsu • DNP • NTT <p>Marketing Sites (Landing Pages)</p> <ul style="list-style-type: none"> • Ricoh • Toyota

Other Points of Interest

- Use of brand TLD to increase security, reduce costs, and to innovate

Start to shrink legacy domains and shift to using brand TLD

- Lack of control of dispersed portfolio
- Reduce security risk entry points
- Restructure and centralization of portfolio

Utilizing brand TLD for new and exciting developments

- Utilize brand TLD for email usage (94 domains)
 - jp.honda, global.komatsu, mail.yodobashi, etc.
- Innovative ways of using brand TLD
 - Using .gmo as a management environment for IoT devices

ICANN 75 Summary

.godaddy – Usage Summary

- 26 Names Registered
- 10 in Active Use
- Blend of External Marketing and Internal usage
- Blend of Resolving and Redirecting usage

goforth.godaddy

The screenshot shows a YouTube channel page for 'Go Forth by GoDaddy'. The channel name is 'GoDaddy' and the page features a playlist of five videos. The main video player shows a thumbnail for 'Go Forth | A GoDaddy Series' with a 'PLAY ALL' button. The channel description states: 'You can live for the weekend, or you can live your dream 24/7. GoDaddy's new series, "Go Forth", follows the riveting, raw stories of three elite athletes — Lizzy Van Patten, Jesse Thomas and Matthias Giraud — as they opt off the well-worn trail to turn their passions into viable livelihoods. The four-part digital series also features skateboarding icon Tony Hawk, who shares wisdom from his own journey as an athlete and entrepreneur.'

Go Forth | A GoDaddy Series
5 videos • 28,581 views • Last updated on Apr 1, 2021

About the BRG

Our History

- Formed in 2013 to support the unique needs of branded TLDs and highlight that the existing Registry Agreement was not suitable
- Successful in helping ICANN to create Specification 13
- Members include company representatives
- Have assisted dozens of .brands to launch, including:
 - Strategic support
 - Technical support
 - Policy support
 - Compliance support

Our Members

- ACO
- Alibaba
- Amazon
- Apple
- BBC
- Caravan
- Citigroup
- eBay
- Ferrero
- FOX
- GMO
- Grainger
- Gucci
- Honda
- HSBC
- IEEE
- JP Morgan Chase
- KPMG
- MarkMonitor
- Marriot
- Microsoft
- Neustar
- Philips

Our Key Focus Areas

- To promote the benefits of brand TLDs and advocate for the BRG within the ICANN community and across the broader digital landscape.
- To empower our members with brand TLD strategies, use cases and best practices to support their activities.
- To regularly engage with our members to ensure that the activities and efforts of the BRG deliver maximum member value.
- To grow and retain BRG membership, with a focus on active brand TLD operators.
- To continue to support ICANN to deliver the next round of TLD applications ASAP

Why Join the BRG?

- Opportunity to meet and learn from your peers
- Safe place to explore concepts for your .brand
- Bi-monthly member meetings
- Regular expert speakers
- Webinars and newsletters
- Case studies
- Policy and operational assistance
- Access to highly experienced advisors if considering applying for a new TLD

BRG Membership

Organisations may join the BRG as a Regular Member or an Associate Member.

- A **Regular Member** is an organization that has delegated one or more dotBrand top-level domain registries and has entered into a Registry Agreement with ICANN
- An **Associate Member** is an organisation that is intending to apply and operate a dotBrand top-level domain registry sometime in the future

For more information on membership, please speak to us here today or get in touch;
