----- (10/16/2014 10:15) -----  
Albert Daniels: Welcome to the Barbados and Trinidad remote hubs!

Alice Jansen: Hello, my name is Alice and I will be monitoring this chat room. In this role, I am the voice for the remote participants, ensuring that they are heard equally with those who are "in-room" participants. Please note that I will only be able to read your comment/question within the time set by the Chair of this session. The chat rooms are the virtual meetings' for everyone, in-room and remote. When submitting a question that you want me to read out loud on the mic, please start with a <QUESTION> and end with a "</QUESTION>". Text outside these quotes will be considered as part of "chat" and will not be read out loud on the mic. Please note that chat sessions are being archived and follow the ICANN Expected Standards of Behavior: <http://www.icann.org/en/news/in-focus/accountability/expected-standards>

John Poole: <QUESTION>John Poole, DomainMondo.com : Your process assumes that ICANN continues to exist as it is presently structured—a California corporation with no membership, etc. On Tuesday, ICANN CEO Fadi Chehade told GAC that in regard to the Accountability Process, "everything is in Scope" and "nothing is out of Scope" which by implication includes the possibility that ICANN may be replaced or restructured organizationally. Without knowing the future organizational structure and accountability structure/controls of ICANN, how can the IANA transition planning proceed and be expected to produce a competent and relevant proposal for Stewardship of the IANA Functions unless your Proposal provides for a complete separation of IANA functions from ICANN? </QUESTION>

----- (10/16/2014 10:27) -----
