

# DNSSEC

ICANN Singapore, 23-27 March 2014

By Patrick van Hout

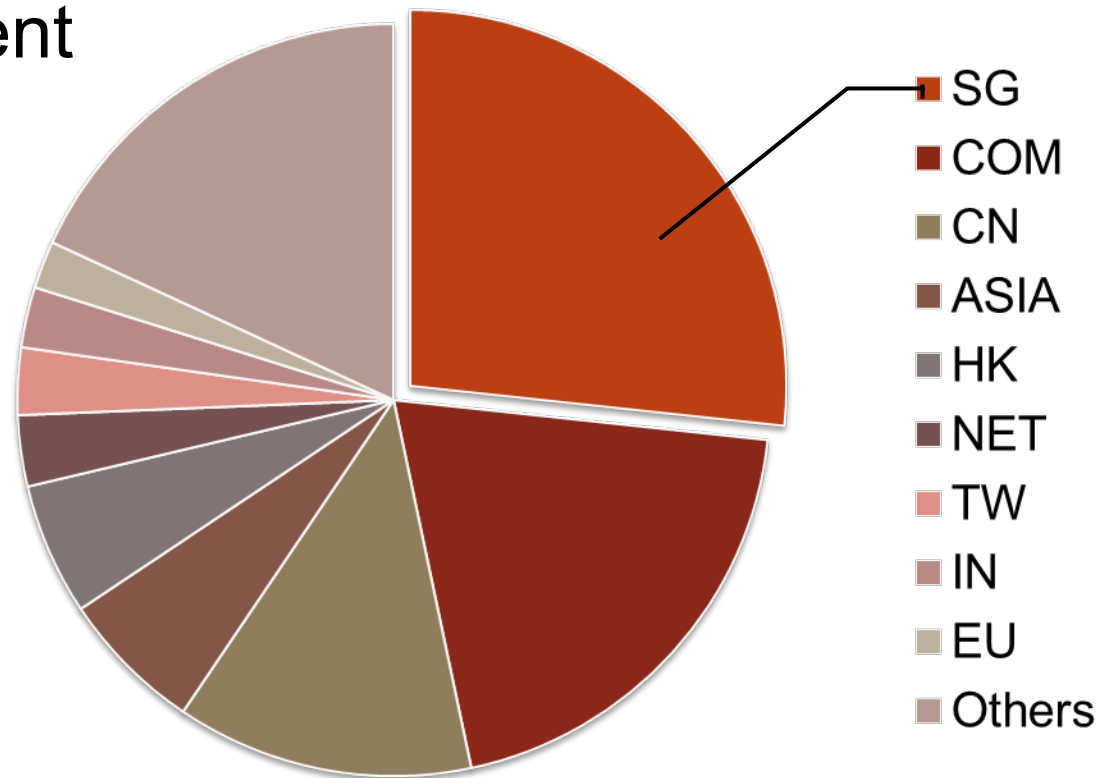

# My Brief DNSSEC Background

- Working for IP Mirror since 2005
- ICANN Mar del Plata, Argentina April 2005
- MYNIC Workshop June 2012
- ICANN Workshop 19-21 March 2014

# Infrastructure

- Three geographically located name servers
- SG largest segment

# Roadblocks

- No demand from public
- Not all registries are DNSSEC ready (e.g. SGNIC)
- Implementation challenges

# Suggestions

- 'Force' the registries to be DNSSEC compliant
- World Launch Day, similar to IPv6 in June 2012
