Overview of the Proposal from the Number Resources Community

Izumi Okutani
Chair, The CRISP Team
What is covered in this presentation

• The process to develop the proposal

• Existing arrangements and effect of NTIA stewardship transition on the IANA Numbering Services

• Key components of the proposal

• Major discussion points
Call for proposal from the ICG

- RIR communities = the number resources community
The RIR community
Process taken by the number resources community

- RIR regional based process
  - AFRINIC
  - APNIC
  - ARIN
  - LACNIC
  - RIPE NCC

Discussions base on existing RIR communities

- Global process
  - Consolidate regional inputs into a single global proposal
  - The CRISP Team was set up for this purpose

Global Discussions platform: ianaxfer@nro.net
Timeline of the Process

Regional process:

ICG RFP APNIC38 ARIN34 LACNIC22 RIPE69 AFRINIC21

Sep Sep Oct Oct Nov Nov
Mailing list discussions per region

Global process:

Call for nominations CRISP Members Announced 1st draft 2nd draft Final proposal

Oct Oct Nov 19 Dec 8 Jan 15 Jan

ianaxfer@nro.net mailing list for global discussions

14 CRISP Team Teleconferences in total: before submission to the ICG
The CRISP Team

CRISP Team

- 15 members

AFRINIC

APNIC

ARIN

LACNIC

RIPE NCC

2 community representatives and 1 RIR staff for each RIR region
Distribution of Number Resources

IANA (ICANN)

RIRs

Based on global policies

NIRs
(in some economies)

Based on policies of each RIR region

LIRs
(ISPs and other service providers)

Networks

RIRs are the direct stakeholders of the IANA Numbering Services
Existing Arrangements

- **NTIA**

  - Delegates the operation of IANA function (by the IANA Contract)
  - Review Service Level of IANA operation on number resources

- **IANA Numbering Services**
  - IANA function operator (ICANN)
  - Provide Service
  - **RIRs**

**NTIA has no involvement in its operation**
What needs to be addressed

• Operation of IANA Numbering Services
  • Not affected by NTIA’s stewardship transition → No need to change this now
  • RIRs and its communities satisfied with the current operation

• Delegation of operation to a particular IANA function operator
  • Need to replace the role of NTIA → RIRs to take this role as the stakeholder

• Review of Service level
  • Need to replace the role of NTIA → RIRs to take this role as the stakeholder
Focus for IANA Numbering Services

• Maintain stability and reliability of the IANA function on the Numbering Services

• Replace the role of NTIA with relevant stakeholder i.e. RIRs

• Clarify IPR related issues
# Components of the proposal

<table>
<thead>
<tr>
<th>Focus</th>
<th>Proposal Components</th>
</tr>
</thead>
<tbody>
<tr>
<td>Stability and reliability of the IANA function</td>
<td>1. ICANN to continue as the IANA functions operator on number resources</td>
</tr>
<tr>
<td>Clarify IPR related issues</td>
<td>2. Intellectual property rights (IPR) related to the provision of the IANA services stay with the community</td>
</tr>
<tr>
<td>Replace the role of NTIA with RIRs</td>
<td>RIRs to exchange service level agreement with the IANA functions operator on number resources</td>
</tr>
<tr>
<td></td>
<td>Establishment of a Review Committee to review performance of IANA Numbering Services</td>
</tr>
</tbody>
</table>

Comparison of current & proposal

- IANA function operator: *Remain unchanged* – ICANN
- Clarify IPR
  - IANA trademark \(\rightarrow\) operational communities
  - iana.org domain \(\rightarrow\) operational communities
  - registered data \(\rightarrow\) RIRs

- IANA contract with IANA function operator: by NTIA \(\rightarrow\) RIRs
  - 11 SLA principles described
  - With reference to relevant sections of the current NTIA IANA contract

- Review of Service level: by NTIA \(\rightarrow\) RIRs
  - Set up the Review Committee with RIR community reps to advice RIRs in its review
Proposal

NTIA $\rightarrow$ RIRs

- Delegates the operation of IANA function for number resources (by SLA)
- Review Service Level of IANA operation on number resources

Advice RIRs on SL review

Review Committee

No changes proposed

IANA Numbering Services

IANA function operator (ICANN to continue)

Provide Service

RIRs

- Clarify IPR arrangements:
  - IANA trademark: the operational communities
  - iana.org: the operational communities
  - registration data: RIRs
IANA SLA Principles

1. Separation of Policy Development and Operational Roles
2. Description of Services Provided to RIRs
3. Obligation to Issue Reports on Transparency and Accountability
4. Security, Performance, and Audit Requirements
5. Review of the IANA Operation
6. Failure to Perform
7. Term and Termination
8. Continuity of Operations
9. Intellectual Property Rights and Rights Over Data
10. Resolution of Disputes
11. Fee

* With reference to existing IANA Contract by NTIA
Review Committee

• Advice RIRs on review of the service level described in SLA
  • Have feedback from the community’s perspective

• Community Representatives from each RIR region
  • Each RIR region will have equal number of representation

• The process of selecting representatives will be driven by RIRs based on open and bottom up principles.
What needs consultation with other operational communities

- IPR on IANA trade mark and IANA.org
  - Need to be clear on how we handle in case of change in IANA operator

- Section III A.3 last paragraph
  “The transfer of the IANA trademark and IANA.ORG domain to the IETF Trust will require additional coordination with the other affected communities of the IANA Services, namely, protocol parameters and names. It is the preference of the Internet Number Community that all relevant parties agree to these expectations as part of the transition.”
How the proposal was consolidated

How regional inputs have been incorporated

Component added by global discussions

Consolidated RIR
IANA Stewardship Proposal

Affirmation of Commitments (AOC)

IANA Functions Service Level Agreement (SLA)

Review Committee

Clarify about IPR for:
- IANA trademark
- iana.org
- Registered data
Community engagement by the CRISP Team

• Shared each version of the proposal on:
  • The global ianaxfer mailing list (open to anyone)
  • NRO CRISP website and
  • The CRISP Team members forwarded to mailing lists of each RIR community

• Feedback from the community confirmed and discussed at every CRISP Team Teleconference
  • The global ianaxfer mailing list
  • Feedback per RIR region

• CRISP Team consideration for feedback shared on the ianaxfer mailing list/spreadsheet of issues list so that:
  • Directions were clear to the community and
  • Could make further comments/clarification questions if needed
Feedback Received

• Some data/facts: before proposal submission
  • 377 posts
  • 53 unique posters
  • Archives of ianaxfer@nro.net

• Support expressed for the proposal in general
  • One poster requested to add more details on some of the proposal components but no support from others for the suggestion
  • No objections for the overall proposal components

• Two comments to icg-forum expressing concerns
Feedback incorporated in the proposal

• Clarify about IPR
• High level principles of the IANA Service Level Agreement
• Clarify that RIRs consult their respective community about the SLA
• High level principles in review committee selection process
• Describe contract fee as an SLA principle
• Editorial suggestions/clarifications
Feedback not incorporated in the proposal

• Specify a particular jurisdiction/dispute resolution mechanism

• Specify a particular selection process of the Review Committee

• Incorporate SLA text as a part of the proposal
If you wish to follow more closely -
